

CRESCENTA VALLEY WATER DISTRICT

**2700 Foothill Boulevard
La Crescenta, California**

**Agenda for the
Regular Meeting of the Board of Directors
of the Crescenta Valley Water District**

to be held on Tuesday, April 14, 2026, at 7:00 p.m.

This meeting will be conducted in person at the address listed above. Members of the public may also participate virtually by using a touchtone phone. You may select any of the following phone numbers (there are more than one for increased reliability during this time of increased phone traffic)

(669) 900-6833

(346) 248-7799

(929) 205-6099

(253) 215-8782

(301) 715-8592

(312) 626-6799

Then, enter Access Code: 625 360 3648

Those members of the public who are able to and would like to additionally participate through computer may access the Zoom audio & video conferencing tool available at the following link:

<https://us02web.zoom.us/j/6253603648?omn=86886263569>

If there is a disruption of service, this meeting will continue without remote participation. The remote participation option is provided as a convenience to the public and is not required.

Public comment may be made either by emailing comments ahead of the meeting or by speaking over the phone. Emailed comments will be sent to the Board of Directors prior to the meeting and posted on the District's website. Comments may be sent to customer service, at (818) 248-3925 or customerservice@cvwd.com by 3pm on April 14, 2026.

Any person may make a request for a disability-related modification or accommodation needed for that person to be able to participate in the public meeting by contacting the District by phone or in writing at the above email address. Requests must specify the nature of the disability and the type of accommodation requested. A telephone number or other contact information should be included so that District staff may discuss appropriate arrangements. Persons requesting a disability-related accommodation should make the request with adequate time before the meeting for the District to provide the requested accommodation.

Any written materials distributed to the Board in connection with this agenda will be made available at the same time for public inspection at the District office located at the above address and posted on the District's website.

Call to Order and Determination of Quorum

Pledge of Allegiance

Adoption of Agenda

Public Comments

At this time, the public shall have an opportunity to comment on any agenda or non-agenda item relevant to the subject matter jurisdiction of the Board. This opportunity is non-transferable, and speakers are limited to one three-minute (3) comment. Under the provisions of the Brown Act, the Board is prohibited from taking action on items not listed on the agenda, except under certain circumstances.

Foothill Municipal Water District Report

1. Report on activities at Foothill Municipal Water District.

Consent Calendar

1. Consideration and approval of the Minutes of the Regular Board Meeting on March 24, 2026.
2. Ratification of Board Compensation for March 2026.

Action Calendar

1. **Contract Award & CEQA Exemption – Water Main Replacements on Montrose Ave and Foothill Blvd., Project E-1100B** – Discussion and possible consideration of motions for the Water Main Replacement Project on Montrose Ave. (Project E-1100B Phase 1) – Motion to authorize the General Manager to award a pipeline replacement construction contract to Doreck Construction for approximately 4,907 L.F. of steel CML&CMC water main; 2) find the Water Main Replacement Project on Montrose Ave. (Project E-1100B Phase 1) categorically exempt under California Environmental Quality Act (“CEQA”) Guidelines § 15301 – negligible or no expansion of use; and 3) Waive formal competitive bidding per CVWD Rules and Regulations, Article 18.01.
2. **Wastewater Master Plan** – Receive and file the Wastewater Master Plan Report.
3. **Ballot for Special District LAFCO Voting Member** – Consideration and motion to cast the District’s ballot for the Special District LAFCO Voting Member.
4. **OPEB Buyout Policy** – Discussion and possible motion to approve the District’s OPEB Buyout Policy.
5. **District Rules & Regulations – Bill Assistance Program** – Consideration and possible motion to approve proposed revisions to Section 8.03.E of the District’s Rules and Regulations, Bill Assistance Program.
6. **Water Efficiency Rebate Program** – Consideration and possible motion to approve the proposed water efficiency rebate program.
7. **Legislative Advocacy Updates** – Discussion regarding possible consideration and motion to support or oppose legislation.

2. Conference with Labor Negotiator pursuant to Government Code Section 54957.6
Agency Negotiator: General Manager
Employee Organization: Crescenta Valley Water District Management Unit
3. Conference with Legal Counsel pursuant to Government Code Section 54956.9(d)(1)
Existing Litigation – City of La Canada Flintridge v. Crescenta Valley Water District,
Los Angeles Superior Court, Case No. 25STCP05050
4. Public Employee Performance Evaluation pursuant to Government Code section 54957
Title: General Manager

Adjournment

MINUTES OF REGULAR BOARD MEETING OF THE BOARD OF DIRECTORS OF CRESCENTA VALLEY WATER DISTRICT

March 24, 2026

Pursuant to the order of the Board of Directors of the Crescenta Valley Water District, a Regular Meeting was held on March 24, 2026, at 7:00 p.m. at the District office located at 2700 Foothill Blvd., La Crescenta California, and through audio and video conferencing. A call-in number was clearly noted on the meeting Agenda, posted in accordance with the Brown Act, with James D. Bodnar presiding.

At roll call, the following Directors and staff members were present or online:

Directors:

**Jeffery W. Johnson
James D. Bodnar
Kerry D. Erickson
Sharon S. Raghavachary (online participation)
Jennifer T. Valdez (absent)**

Attorney:

Ryan Guiboa

General Manager:

James Lee (absent)

**Director of Engineering
and Operations:**

Carla Dillon

**Director of Finance and
Administration:**

Arturo Montes

Staff Members:

**Elena Chamorro, Asst. Director of Finance & Admin.
Gabriel Gomez III, Assistant Director of Operations
Christina Kopelman, CIP Project Manager
Pam Leddy, Administrative Assistant
Arminé Sargsyan, Sr. Water Resources & Ext. Affairs
Specialist
Darlene Telles, Risk & Resilience Manager**

Guests:

**Kyle McCarty
Michael Gavina**

Director Raghavachary notified the Board of the need to participate pursuant to the disability accommodation provisions of the Brown Act (Government Code § 54953(c)). Director Raghavachary disclosed that no other adults are present at her teleconferencing location.

PLEDGE OF ALLEGIANCE

Ms. Dillon opened the meeting by leading the Directors and staff in reciting the Pledge of Allegiance.

ADOPTION OF AGENDA

It was moved by Director Erickson, seconded by Director Johnson, and carried by a 4-0 roll-call vote that the Agenda for the Regular Board Meeting of March 24, 2026, be adopted.

AYES: Director Bodnar
Director Erickson
Director Johnson
Director Raghavachary

ABSENT: Director Valdez

NOES: None

PUBLIC COMMENTS – Mr. Colcord announced that the AFC submitted an application for a grant from the county to help with the replacement of the gate at the Rosemont Preserve. Mr. Colcord invited Directors and staff leadership to attend the Rosemont Preserve 25th Anniversary Celebration on April 10, 2026 at the Rosemont Preserve.

FOOTHILL MUNICIPAL WATER DISTRICT REPORT – Mr. Colcord announced that Laura Olhasso was appointed to the open position for FMWD Board Member from District 4. Mr. Colcord reported that 7,000' of the scheduled 12,000' of pipeline inspections have been completed. Mr. Colcord stated that a series of technical difficulties did not allow the completion of the inspection during the scheduled timeframe of March 16-21. Mr. Colcord said that lobbyists are working on the following funding opportunities 1) Three (3) FMWD reservoirs due to be replaced in the next 10 years, 2) Federal funding request in the amount of \$1.8M to revive a long-time dormant storage/recovery well at Las Flores, 3) State budget rider for \$4M for Eaton Fire related recovery money.

CONSENT CALENDAR – It was moved by Director Johnson, seconded by Director Erickson, and carried by a 4-0 roll-call vote to approve the modified Minutes of the Regular Board Meeting held on March 10, 2026.

AYES: Director Bodnar
Director Erickson
Director Johnson
Director Raghavachary

ABSENT: Director Valdez

NOES: None

It was moved by Director Erickson, seconded by Director Raghavachary to ratify the disbursements for February 2026, which consisted of:

Payment of demands against the Crescenta Valley Water District on or before February 28, 2026, the same having been approved by the General Manager, and heretofore paid, are to be ratified and approved subject to audit, in the aggregate sum of One-Million, Eight-Hundred Twenty-Six Thousand, Eight-Hundred Three Hundred Dollars and Ninety-Four Cents (\$1,826,803.94), which is composed of the individual items set forth herein.

AYES: Director Bodnar
Director Erickson
Director Johnson
Director Raghavachary

ABSENT: Director Valdez

NOES: None

Legislative Advocacy Updates – Ms. Dillon stated that AB 1893 – the District-sponsored bill for wildfire mitigation continues to develop a coalition, with approximately 55 committed agencies. Ms. Dillon said that the bill has passed in the Assembly Natural Resources Committee and will subsequently move forward to the Assembly Emergency Management Committee after Spring recess. Ms. Dillon provided a summary of the grants and budget requests which are being pursued by the District and their current status, including \$3.5M from state funding and \$1.3M from federal funding. Ms. Dillon included a matrix of bill tracking for bills pertaining to the District.

Ballot for Special District LAFCO Voting Member – Mr. Montes announced that LAFCO has retained William Kruse of Lagerlof, LLP to conduct the election for the Special District LAFCO Voting Member and Alternate Representative positions. Mr. Montes stated that Jorge Marquez ran unopposed for the Alternate Representative seat and that his term will begin on May 4, 2026. Mr. Montes provided ballot forms and resumes for the following nominees: 1) Gary Burns – Las Virgenes Municipal Water District, Board of Directors, 2) Vera Robles De Witt – Water Replenishment District of Southern California, Board of Directors, and 3) Robert W. Lewis – Rowland Water District, Board of Directors. Mr. Montes stated that the ballots must be received at the offices of Lagerlof, LLP no later than 5:00 pm on May 1, 2026.

Following discussion:

The Board requested information on the agency of LAFCO and their focus of interests. The Board requested that the ballot for Special District LAFCO Voting Member be agendaized at the April Board Meeting.

Progressive Design Build Guaranteed Maximum Price (GMP) & CEQA Exemption – Water Main Replacements on Montrose Ave. and Foothill Blvd., Project E-100B – Ms. Dillon stated that in November 2025 staff concluded a progressive design-build (PDB) team procurement process, after which the Board authorized personnel to initiate contract negotiations with the highest-ranked PDB Team, comprised of Sukut and West Coast Civil Engineering for the Montrose Ave. and Foothill Blvd. segments of pipeline. Ms. Dillon said that CVWD staff and the PDB team began designing a replacement project

along Montrose Ave. and Foothill Blvd. for a total of 9,450 feet of pipeline, but since these were two distinct areas, the Montrose portion proceeded as Phase 1. Ms. Dillon said that the Progressive Design-Build method is a two-stage contracting process. The first stage which involves design and other preconstruction activities is complete and presented the guaranteed maximum price (GMP) in the amount of \$4,977,171 – second stage, based on the scope, design and project assumptions for the possible consideration by the Board. Ms. Dillon emphasized that this cost only represents the Montrose portion (approximately 4,907 L.F. of steel CML&CMC water main) of the work. Ms. Dillon said that staff had reviewed the pricing and found it comparable for prior contracted pipeline replacement of this complexity. Ms. Dillon provided a preliminary project schedule, and FY 25/26 Pipeline Projects Costs.

Following discussion:

The Board requested that possible alternatives for Project E-1100B be discussed during the Engineering and Operations Committee Meeting on April 8, 2026, after which the said project would be brought before the Board for discussion and possible consideration of motions at the April 24, 2026 Board Meeting.

INFORMATION ITEMS – Glendale Community College STEM Fest and panel presentation, CV Weekly – dated March 12, 2026 “In Memoriam of Charles Beatty”, and CV Weekly – dated March 19, 2026 “Crescenta Valley Water Reliability Projects: Timeline, Traffic & What to Expect”, and “Understanding Your Water Pressure” Public Outreach flyer.

WRITTEN COMMUNICATION – None.

Public Comment – None.

GENERAL MANAGER – Mr. Montes announced that CVWD participated in the STEM Fest at Glendale Community College. Mr. Montes shared that CVWD employees participated in the Strength Finders exercises provided by Jim Uhl in 2024 and that the CVWD hires since that time were able to experience the same exercises March 11th and 12th. Mr. Montes announced the 25th Anniversary Celebration of the Arroyos & Foothills Conservancy on April 10, 2026 at the Rosemont Preserve. Mr. Gomez provided a summary of measures taken to provide water to CVWD customers during the scheduled Foothill Municipal Water District shutdown March 16-21, 2026.

ATTORNEY REPORT – Mr. Guiboa reported that H.R.2269 – 119th Congress (2025-2026): WIPPE Act passed the Senate and is awaiting Congress to pass. Mr. Guiboa stated that this bill requires entities responsible for the labeling or retail packaging of certain premoistened, nonwoven wipes to label such products clearly and conspicuously with the phrase “Do Not Flush” and accompanying symbol. Mr. Guiboa said that approximately \$440M of damage occurs annually due to the flushing of such materials.

REPORTS OF COMMITTEES

Community Relations & Emergency Planning Committee – Director Raghavachary reported that the Committee had not met; however, a meeting will be scheduled as needed.

Employee Relations Committee – Director Raghavachary reported that the Committee had not met; however, a meeting will be scheduled as needed.

Engineering, Operations & Technology Committee – Director Erickson reported that the Committee had met on March 11, 2026. A meeting is scheduled for April 8, 2026.

Executive Committee – Director Bodnar reported that the Committee had not met; however, a meeting will be scheduled as needed.

Finance & Policy Committee – Director Johnson reported that the Committee had not met. A meeting is scheduled for March 26, 2026.

Ad Hoc PFAS Committee – Director Johnson reported that the Committee had not met; however, a meeting is scheduled for March 27, 2026.

Ad Hoc Cyber Security Committee – Director Raghavachary reported that the Committee had not met; however, a meeting will be scheduled as needed.

Ad Hoc Consolidation Committee – Director Raghavachary reported that the Committee had not met; however, a meeting will be scheduled as needed.

Ad Hoc Legal Committee – Director Johnson reported that the Committee had met on March 24, 2026. A meeting will be scheduled as needed.

DIRECTORS' ORAL REPORTS

Director Bodnar – Attended the Engineering & Operations Committee on March 11th, and the La Canada Emergency Preparedness Meeting on March 18th. Director Bodnar completed the Fiscal & Financial Training requirement course.

Director Erickson – Completed the Fiscal & Financial Training requirement course. Director Erickson attended the Crescenta Valley Town Council Meeting and commended Assembly Member Schultz for his attendance and support of CVWD.

Director Johnson – No report.

Director Raghavachary – No report.

Director Valdez – Absent

BOARD MEMBERS REQUESTS FOR FUTURE AGENDA ITEMS – Director Bodnar requested information on the procedures and personnel responsible for managing finances at the District. Director Johnson requested reports of emergency planning scenarios by the District.

CLOSED SESSION – No reportable action.

ADJOURNMENT

There being no other business to come before the Board, at 9:20 p.m., the meeting was adjourned.

APPROVED

James D. Bodnar
Board President

Arturo Montes
Board Secretary

CRESCENTA VALLEY WATER DISTRICT

BOARD OF DIRECTORS - STAFF REPORT

Action Item No. 2
April 14, 2026

To: Honorable President and Members of the Board of Directors
From: Carla Dillon – Director of Engineering & Operations
Subject: **Wastewater Master Plan**

ACTION ITEM:

Receive and file the Wastewater Master Plan Report.

BACKGROUND:

Crescenta Valley Water District staff worked with the consultant Kennedy Jenks to prepare a Wastewater Master Plan (WWMP). The plan has been completed and presented to the Engineering, Operations, and Technology Committee. The main goal of this plan is to provide a roadmap of projects and improvements to ensure the safety and reliability of the CVWD sewer collection system. The objectives of this WWMP included:

- 1) Identifying existing collection system deficiencies through discussions with Staff, condition assessments, and hydraulic modeling/flow data collection
- 2) Quantifying impacts to the collection system as a result of future growth/densification (including La Canada Flintridge), and identifying potential future collection system deficiencies
- 3) Developing a list of CIP projects prioritized by risk and estimating project costs
- 4) Developing an implementation strategy for potential near-term and long-term CIP projects

This is the first WWMP since CVWD's sewers were constructed in the 1980's. An overview of the plan will be presented, and the recommendations include both infrastructure and operational projects, as follows.

Proj. ID	Project Name	Project Description	Justification
Infrastructure Projects			
I-1	Granada Pump Station Improvements	Site safety and pump system improvements to the Granada Pump Station: entails a new wet well, new gravity sewer influent line, and building, piping, electrical, and site modifications.	Asset condition is poor and is an existing safety issue for operations staff. Regulatory issue with NFPA 820.
I-2	Pine Glen / Pineridge (EMA 1) Switchback Redesign	Improvements to prevent historical debris collection and SSO events: abandonment/demolition of existing sewer lines, new installation of reversed flow sewer line, drop maintenance hole, and chimney lateral.	Asset in poor condition and was a historical SSO site (regulatory issue). Financial risk if surrounding homes are damaged.
I-3	Rosemont / Hwy 210 Crossing Retrofit	Seismic retrofit of highway bridge crossing: retrofit each end of bridge pipe with seismically rated sewer fitting. Option for full bridge sewer line and casing pipe replacement.	Asset condition unknown. Public safety risk due to crossing Hwy 210, large regulatory and public image risk
I-4	Briggs / Hwy 210 Crossing Retrofit	Seismic retrofit of highway bridge crossing: retrofit each end of bridge pipe with seismically rated sewer fitting. Option for full bridge sewer line and casing pipe replacement.	Asset condition unknown. Public safety risk due to crossing Hwy 210, large regulatory and public image risk
I-5	Hillside Dr Private Lateral Backflow Preventer	Backflow prevention: Installation of duckbill backflow preventer on private lateral off interceptor.	Public safety risk and major financial risk. Relatively low effort to address for large gain
I-6	Dorothy / Goss Canyon Access Road	Improve maintenance hole access: obtainment of easement, construction of access road.	Operations staff safety issue, fiscal liability if backup occurs and damages nearby homes
I-7	Starfall / Ridgeline Access Road	Improve maintenance hole access: obtainment of easement, construction of access road.	Operations staff safety issue, fiscal liability if backup occurs and damages nearby homes
I-8	Diverter Valve Upgrades	Security improvements: installation of UPS, site lighting, perimeter fence.	Safety concern for both public and operations staff due to lack of security
Non-Infrastructure Projects			
N-1	Rosemont, Briggs Crossings Condition Assessment	Thoroughly inspect sewer lines and casings crossing Rosemont and Briggs bridges. Would entail consultant CCTV inspection of sewer and void between pipe and casing. One-time.	Asset condition unknown. Public safety risk due to crossing Hwy 210, large regulatory and public image risk
N-2	Smart Cover Installation	Maintenance hole monitoring and alarms through smart maintenance hole cover systems. 4 covers to stay in position, 6 covers to alternate locations. Ongoing, indefinite.	Low-cost method of evaluating system performance and identifying potential areas with frequent blockages/flow issues
N-3	Interceptor Items	Improved Emergency Response Training for Interceptor break (annual, indefinite). Improved Communication with ADS to identify Elk Ave Flow Meter Failure (one-time).	Improve training and resiliency to handle interceptor break, improve ability to know when flow meter is in a failed state
N-4	EMA 7 Monitoring	Monitoring of Canalda tank discharge. 3 months of monitoring; one-time.	Unknown asset condition, receiving unknown quantities of discharge flow
N-5	SS 1,2,3 Monitoring	Targeted flow monitoring for sewersheds 1, 2, 3. 3 months of monitoring per year for 5 years.	Narrow down areas with large I&I contributions for targeted pipe rehabilitation/lining projects
N-6	Work Order Database	Develop work order database with pipe and maintenance hole condition ratings data. One-time.	Improves APM practices by being able to visualize and prioritize pipeline replacement projects based on condition assessment data

RECOMMENDATION:

Discussion and receive and file the Wastewater Master Plan Report.

Prepared and submitted by:

A handwritten signature in cursive script that reads "Carla Dillon".

Carla Dillon, P.E.

CRESCENTA VALLEY WATER DISTRICT

BOARD OF DIRECTORS - STAFF REPORT

Action Item No. 3
April 14, 2026

To: Honorable President and Members of the Board of Directors
From: James Lee – Interim General Manager
Subject: Ballot for Special District LAFCO Voting Member

ACTION ITEM:

Consideration and motion to cast the District's ballot for the Special District LAFCO Voting Member.

BACKGROUND:

At the March 24, 2026 Board meeting, staff presented information provided by William Kruse of Lagerlof, LLP, who was retained by LAFCO to conduct the election for the Special District LAFCO Voting Member and Alternate Representative positions. The Board directed Mr. Guiboa to provide additional information regarding LAFCO and its areas of focus. A brief overview of LAFCO has been included as an attachment for the Board's reference.

The three (3) nominees for Special District LAFCO Voting Member are:

- Gary Burns – Las Virgenes Municipal Water District, Board of Directors
- Vera Robles De Witt – Water Replenishment District of Southern California, Board of Directors
- Robert W Lewis – Rowland Water District, Board of Directors

Included in this package are the ballot forms and the resumes for each nominee. Ballots must be received at the offices of Lagerlof, LLP no later than 5:00 pm on May 1, 2026.

Prepared and submitted by:

James Lee
General Manager

Attachment(s): Candidacies for LAFCO Special District Voting Member
LAFCO Overview

Overview of LAFCO

After World War II, California experienced dramatic growth in population and economic development. With this boom came a demand for housing, jobs, and public services. To accommodate this demand, the state approved the formation of many new local government agencies, often with little forethought as to the ultimate governance structures in a given region. The lack of coordination and adequate planning led to a multitude of overlapping, inefficient jurisdictional and service boundaries, and the premature conversion/loss of many agricultural and open-space lands. To address these problems, Local Agency Formation Commissions, or “LAFCOs” were created in 1963, and they are now governed by the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (CKH Act). Today, there is a LAFCO in each of California’s 58 counties. While LAFCO composition varies by county, Los Angeles LAFCO is composed of the following nine members, with six alternate members (one for each category below:

- Two members of the Los Angeles County Board of Supervisors;
- One member of the Los Angeles City Council;
- Two members of city councils who represent the other 88 cities (other than the City of Los Angeles) in the County;
- Two members who represent independent special districts;
- One member who represents the San Fernando Valley;
- One member who represents the general public.

LAFCO’s objectives are to: (1) encourage the orderly formation of local governmental agencies; (2) preserve agricultural land resources; and (3) discourage urban sprawl. LAFCO accomplishes these by: (1) reviewing proposals for the formation of new local governmental agencies and for changes in the organization of existing agencies; (2) conducting service reviews to evaluate the provision of municipal services within each county and to better inform itself and the community as it seeks to perform its responsibilities; and (3) determining the sphere of influence for each city and special district within each county, which is a plan for the probable physical boundaries and service areas for each local agency.

LAFCOs regulate, through approval or denial, the boundary changes proposed by other public agencies or individuals, but do not have the power to initiate boundary changes on their own. However, LAFCO may initiate certain proposals, including, but not limited to, the consolidation, dissolution, or merger of a district or districts, if the proposal is consistent with the recommendations of a study conducted by the commission, and LAFCO makes certain findings required by the CKH Act. (Gov. Code, § 56375(a)(2).) Depending on the type of proposal, and whether sufficient protests are submitted by landowners and/or voters in the affected territory, LAFCO-initiated proposals may or may not be subject to voter approval following LAFCO approval.

CRESCENTA VALLEY WATER DISTRICT

BOARD OF DIRECTORS - STAFF REPORT

Action Item No. 4
April 14, 2026

To: Honorable President and Members of the Board of Directors
From: Arturo Montes – Director of Finance and Administration
Subject: OPEB Buyout Policy

ACTION ITEM:

Discussion and possible motion to approve the District's OPEB Buyout Policy.

BACKGROUND:

At the July 8, 2025 Board Meeting, staff presented the District's long-term Other Post-Employment Benefits (OPEB) liability associated with retiree medical benefits for employees hired prior to July 1, 2019.

At the September 9, 2025 Board Meeting, staff presented funding strategies and introduced the concept of OPEB buyouts as a complementary approach to managing the liability.

Since that time, the Board has adopted an OPEB funding policy that includes prefunding through the California Employers' Retiree Benefit Trust (CERBT).

At the March 26, 2026 Finance and Policy Committee meeting, staff presented additional analysis, including:

- Retirement benefit probability
- Buyout analysis for active employees
- Buyout analysis for retirees

The Committee recommended that staff return with a formal buyout policy incorporating revised buyout structures.

DISCUSSION:

OPEB Liability Overview

The District's OPEB liability remains concentrated among a relatively small group of long-tenured employees and retirees. Historical analysis indicates that approximately 26% of eligible employees ultimately qualify for lifetime medical benefits. Once an employee reaches 10 years of service, the likelihood of qualifying increases to approximately 38%. Employees with 15 or more years of service represent the majority of the District's long-term liability exposure.

OPEB Buyout Structure

Following discussion the Finance and Policy Committee provided guidelines for staff to develop the framework for a buyout policy:

- Active Employees under age 50
 - 10 to 15 years of service: 35% of actuarial liability
 - 15 or more years of service: 25% of actuarial liability
- Active employees age 50 and over
 - 25% of actuarial liability
- Retirees
 - Equivalent of three (3) to five (5) years of premium payments

The proposed policy maintains voluntary participation and preserves the District's discretion in determining when and to whom buyouts are offered. It includes appropriate Board oversight for significant or aggregate expenditures to ensure fiscal accountability, and it is structured to remain consistent with the District's actuarial assumptions and the requirements of GASB 75.

RECOMMENDATION:

Discuss and approve the District's OPEB Buyout Policy.

Prepared and Submitted by:

Arturo Montes

Director of Finance and Administration

Attachment:

1. Draft OPEB buyout policy

g:\management\board meeting staff reports\2026\04-14-26 - Board Memo - OPEB Buyout Policy.docx

Crescenta Valley Water District OPEB Buyout Policy

A. Purpose

The purpose of this policy is to provide a structured, voluntary buyout program for participants in CVWD's OPEB plan. The program is designed to reduce long-term liabilities, provide flexibility to employees and retirees, and ensure fairness through actuarially determined lump-sum offers.

B. Eligibility

Buyouts may be offered only to individuals who:

- Were eligible for retiree medical benefits under District policy in effect on or before June 30, 2019, and
- Are included in the District's most recent actuarial valuation

Employees hired on or after July 1, 2019 are not eligible.

Participation is voluntary. The District is not required to offer a buyout to any individual regardless of eligibility, vesting status, or actuarial inclusion.

C. Buyout Formula

Active Employees

Buyouts for active employees shall be based on Total OPEB Liability using the following structure:

- Active Employees under age 50
 - 10 to 15 years of service: 35% of actuarial liability
 - 15 or more years of service: 25% of actuarial liability
- Active employees age 50 and over
 - 25% of actuarial liability

For purposes of this Policy, age shall be determined as of the date of the buyout offer.

Retirees

Buyouts for retirees may be determined using one of the following methods, at the District's discretion:

- Retirees
 - Equivalent of three (3) to five (5) years of premium payments

D. General Conditions

1. Buyouts are voluntary and subject to Board approval.
2. Amounts will be reviewed annually by the District's actuary to ensure equity and liability reduction.
3. The Buyout policy will be reviewed at a minimum every 3 years to ensure actuarial soundness.

E. Acceptance of Buyout

The acceptance of a buyout:

- Permanently terminates all rights to retiree medical benefits
- Applies to the participant and any eligible dependents
- Requires execution of a binding waiver and release
- Is irrevocable

F. Communication and Transparency

1. Participants will receive clear explanations of options and tradeoffs.
2. The District will provide education sessions prior to buyout windows.
3. All communications will align with formal plan documents to avoid creating unintended obligations.

G. Authority and oversight

The General Manager is authorized to:

- Establish buyout windows
- Determine eligibility and buyout category

- Approve individual buyouts within delegated authority

The Director of Finance and Administration shall:

- Verify calculations
- Ensure consistency with actuarial assumptions
- Maintain records and financial reporting

Board approval is required for:

- Adoption or amendment of this Policy
- Buyouts exceeding Board-established thresholds

H. Reporting

The General Manager shall report to the Board after each buyout, including:

- Number of buyouts offered and accepted
- Total buyout payments
- Estimated reduction in OPEB liability
- Confirmation of policy compliance

Individual participant information may be excluded for confidentiality.

I. Policy Limitations

Nothing in this Policy shall be interpreted to:

- Create a vested right to a buyout
- Require the District to offer a buyout to any individual
- Modify or expand existing retiree medical benefits

All buyouts are subject to District discretion and available funding.

CRESCENTA VALLEY WATER DISTRICT

BOARD OF DIRECTORS - STAFF REPORT

Action Item No. 5
April 14, 2026

To: Honorable President and Members of the Board of Directors
From: Arturo Montes – Director of Finance and Administration
Subject: District Rules & Regulations – Bill Assistance Program

ACTION ITEM:

Consideration and possible motion to approve proposed revisions to Section 8.03.E of the District's Rules and Regulations, Bill Assistance Program.

BACKGROUND:

The District's Bill Assistance Program currently provides a 25 percent discount on applicable charges for qualifying residential customers. The existing policy includes reference to a fixed quantity of water usage (26 units) eligible for the discount, which was based on the former billing structure where the thresholds for water usage for Tier 1 and Tier 2 were static.

DISCUSSION:

With the transition to budget-based billing, tier thresholds are no longer fixed and instead vary based on billing period length, household size, lot size, and weather conditions. As a result, the existing reference to a fixed usage amount is no longer consistent with the current rate structure.

To align the policy with the updated billing structure and maintain the program's original intent, staff recommends revising the language to apply the discount to Tier 1 and Tier 2 usage, which represent efficient water use.

The proposed revisions were presented to the Finance and Policy Committee on March 24, 2026. The Committee reviewed the changes and directed staff to present the revised policy to the full Board for consideration.

A redlined version of the proposed revisions is attached for the Board's review.

RECOMMENDATION:

Adopt the proposed revisions to Section 8.03.E of the District's Rules and Regulations, Bill Assistance Program.

Prepared and Submitted by:

Arturo Montes
Director of Finance and Administration

Attachment(s):

1. Article 8.03.E: Bill Assistance Program (redline)

g:\management\board meeting staff reports\2025\4-14-26 - Board Memo - Rules and Regulations - Bill Assistance Program.docx

Rules and Regulations Section 8.03.E

Bill Assistance Program: A residential customer of the District who resides on the property and who is the named account holder on the records of the District may be eligible for a 25 percent discount on the combined bill for water, wastewater and/or wastewater standby charges.

1. The customer must meet either of the following conditions, which are modeled after Southern California Edison's CARE program to qualify for the Bill Assistance Program.

a. The customer or any dependent member of the household receives benefits from any of the following programs (must provide proof)

- Bureau of Indian Affairs General Assistance
- CalFresh (Food Stamps)
- CalWORKs (TANF)/ Tribal TANF
- Head Start Income Eligible (Tribal Only)
- CARE Program (Gas Company)
- Low Income Home Energy Assistance Program (LIFEAP)
- Medi-Cal/Medicaid
- Medi-Cal for Families
- National School Lunch Program
- California Lifeline (Phone Company)
- Supplemental Security Income (SSI)
- Women, Infants & Children (WIC)

b. Total income for all members in the household meets the guidelines listed below. "Income" means all income received in the prior calendar year, including but not limited to social security, interest income, salaries, wages, pensions, rents, commissions, and capital gains. Proof of total household income includes federal and state income tax returns for the prior year, or if no tax return was filed, other proof of total household income satisfactory to the District.

Household Size Income Eligibility Upper Limit

Household Size	Income Eligibility Upper Limit
1-2	\$ 54,100
3	\$ 68,300
4	\$ 82,500
5	\$ 96,700
6	\$ 110,900
7	\$ 125,100
8	\$ 139,300
Each Additional Person	\$ 14,200

* Information is based on federal poverty guidelines and updated annually on July 1.

2. The discount becomes effective for the first full billing period following approval of an application in a form prescribed by the District. Applicants must sign the form under penalty of perjury and must furnish proof of eligibility as listed above.
3. Decisions on any questions concerning eligibility for the discount shall be made by the General Manager. Applicants shall have the right to appeal adverse determinations to the Board of Directors. Appeals shall be in writing and delivered to the District within 10 days following the General Manager's decision.
4. Once an application is approved, the Customer shall receive the eligible discount on future bills as long as the Customer continues to be eligible. The 25 percent discount applies to wastewater charges, all service charges, and all Tier 1 and Tier 2 usage~~the first 26 billing units of water per billing cycle~~. Usage over Tier 2~~26 billing units of water~~ per billing cycle will be billed at standard rate. It shall be the duty of the Customer to advise the District if the Customer becomes ineligible for the discount. The Customer must reapply for the discount every two years to retain eligibility.
5. This program may be modified without prior notice. When the program is modified, current program recipients will remain eligible until the time of their recertification. During the recertification process, the customer's eligibility will be based on current requirements at the time of recertification.
6. This program is on a first-come-first-serve basis limited to annual budgeted funding.
 - a. When funding limits have been reached, applicants will be placed on a waiting list based on the order in which applications were received. If the program is closed due to funding limits, current members will be notified of recertification requirements and due dates. If a customer does not recertify within the allotted time, they will need to reapply and join the waiting list.

CRESCENTA VALLEY WATER DISTRICT

BOARD OF DIRECTORS - STAFF REPORT

Action Item No. 6
April 14, 2026

To: Honorable President and Members of the Board of Directors
From: Arturo Montes – Director of Finance and Administration
Subject: **Water Efficiency Rebate Program**

ACTION ITEM:

Consideration and possible motion to approve the proposed water efficiency rebate program.

BACKGROUND:

At the March 5, 2026 Finance and Policy Committee meeting, staff presented opportunities to further promote water conservation while addressing customer sensitivity to fixed charges under the District's updated rate structure, through a water efficiency rebate program.

The Committee expressed interest in developing a program that:

1. Rewards efficient water users
2. Provides a meaningful financial incentive
3. Is simple to administer and understand
4. Can be effectively promoted through public outreach

Based on this direction, staff developed a rebate program framework, that was presented to the Committee at the March 26, 2026 Finance and Policy Committee meeting, which is included as an attachment.

DISCUSSION:

The proposed program is structured to reward efficient indoor water use, rather than total consumption, to ensure equity across varying household sizes.

Under the proposed framework, residential customers would qualify for an annual rebate if they:

1. Maintain water usage at or below 75% of their assigned indoor water allocation over a twelve (12) month period
2. Maintain their account in good standing
3. Have no unresolved leak notifications or violations

The draft policy includes a proposed rebate amount of \$55 per qualifying account. The District's current fixed service charge is approximately \$44.53 per month, which would make the rebate approximately 10% of the annual fixed charge for a ¾" meter.

In addition to promoting conservation, the program has the potential to generate measurable cost savings through reduced water purchases. Based on an estimated reduction of 1,500 gallons per month across approximately 2,800 customers, the program could reduce imported water purchases by approximately 160 acre-feet annually, resulting in an estimated \$345,000 in avoided costs.

The estimated cost of the program with a \$55 rebate is \$160,000 annually, resulting in a net positive financial impact of approximately \$185,000 per year. The table below shows the varying costs by increasing the rebate to 15% (\$80) or 20% (\$110), or by increasing the efficiency threshold.

Percentage of Indoor Water Budget Used	\$55 Rebate	\$80 Rebate	\$110 Rebate
25%	\$ 73,000	\$100,000	\$145,000
50%	\$115,000	\$157,000	\$230,000
75%	\$160,000	\$216,000	\$320,000

The program also provides an opportunity to highlight and promote efficient water users through billing communications, and community outreach, reinforcing a commitment to conservation.

RECOMMENDATION:

Adopt the proposed water efficiency rebate program.

Prepared and Submitted by:

Arturo Montes
Director of Finance and Administration

Attachment(s):

1. Water Efficiency Rebate Program

g:\management\board meeting staff reports\2025\4-14-26 - Board Memo - Water Efficiency Rebate Program.docx

Water Efficiency Rebate

1. Purpose

The purpose of this policy is to encourage efficient indoor water use by providing a rebate to residential customers who demonstrate sustained water use below their assigned indoor water allocation.

This program is intended to:

- Promote long-term water conservation
- Reduce system-wide demand and associated supply costs
- Support efficient use of District water resources

2. Program Overview

The Low Water Use Efficiency Rebate Program provides an annual bill credit to eligible residential customers who maintain water usage at or below 75% of their assigned indoor water allocation over a consecutive twelve (12) month period.

3. Eligibility Requirements

To qualify for the rebate, a customer must meet all of the following conditions:

1. The account must be classified as a residential account.
2. The account must remain active for a continuous twelve (12) month evaluation period.
3. The customer's average monthly water usage must be at or below 75% of the assigned indoor water allocation during the evaluation period.
4. The account must be in good standing, with no delinquent balances at the time of rebate issuance.
5. The account must not have any unresolved leak notifications or violations during the evaluation period.

The District reserves the right to verify usage data and eligibility criteria prior to issuing any rebate.

4. Rebate Amount

Eligible customers shall receive an annual rebate in the form of a bill credit in the amount of:

\$55 per qualifying account per year

The rebate amount is intended to provide a meaningful financial incentive while maintaining alignment with the District's cost-of-service principles.

5. Rebate Distribution

- Rebates shall be issued as a bill credit applied to the customer's water account in January.
- Rebates shall be processed annually following completion of the twelve (12) month evaluation period of January 1 to December 31.
- No application is required; eligibility will be determined automatically based on metered consumption data.
- The rebate will appear on the customer's bill as "Water Efficiency Rebate."

6. Public Outreach

The District shall promote the program through:

- Customer billing communications
- Online customer portals (e.g., WaterSmart)
- Community outreach and public engagement events
- Highlight conservation achievements to encourage broader customer participation.

CRESCENTA VALLEY WATER DISTRICT

BOARD OF DIRECTORS - STAFF REPORT

Action Item No. 7
April 14, 2026

To: Honorable President and Members of the Board of Directors
From: James Lee – General Manager
Subject: Legislative Advocacy Updates

ACTION ITEM:

Discussion regarding possible consideration and motion to support or oppose legislation.

BACKGROUND:

The following are areas for discussion:

a. District-sponsored bill(s)

- i. **AB 1893** – The District-sponsored bill for wildfire mitigation continues to develop a coalition, with approximately 55 agencies committed to signing on to the effort thus far.
 - i. This bill unanimously passed the Assembly Natural Resources Committee and is pending a vote in the Assembly Emergency Management Committee on April 13th.

b. Non-District-sponsored bill(s)

- i. **AB 2013 (Bennett)** – This bill would require a water supplier that services more than 100 customers that are located in a moderate, high, or very high fire hazard severity zone to establish an emergency preparedness plan for response to red flag warnings, extreme weather events, and other major power outages or emergencies that pose a potential threat to providing adequate water service. This would require a water supplier to provide adequate water supply for fire fighting activities during an extreme weather event. ACWA and CMU oppose the bill unless amended. Set for a hearing in the Assembly Environmental Substances and Toxic Materials Committee on April 14, 2026.
- ii. **AB 2739 (Soria)** – This bill would establish a Water Affordability and System Stabilization Trust for:
 - i. Community Water Affordability Program: Grants to water utilities for water system repairs, rehabilitation, and enhancements, water safety and quality, and other local water system infrastructure projects
 - ii. Water Rate Assistance Fund: Allocation of funds to implement a statewide low-income water rate assistance program

Additionally, AB 2739 would establish a permanent Water Affordability and System Stabilization Trust” in the State Treasury. The Legislature would deposit funds into the trust, and a trustee would distribute most of it for water assistance programs, reinvesting 10% to grow the fund.

AB 2739 is sponsored by Irvine Ranch Water District and Rancho California Water District. This bill will eventually be joined with SB 1125 (Menjivar), which would establish a low-income water rate assistance program. The SWRCB would adopt guidelines with minimum eligibility requirements and the ability to confirm eligibility. Set for a hearing in Assembly Water Parks and Wildlife committee on April 14, 2026.

- iii. **AB 1603 (Schultz)** – This bill would prohibit the Department of Pesticide Regulation from registering/re-registering a pesticide that contains intentionally-added PFAS substances, and commencing January 1, 2028, would prohibit the manufacture, distribution, or sale of those pesticides unless a statement is included on the label that reads: "This product contains {PFAS} substances...and can contaminate produce, groundwater, drinking water, soil, and the environment." Additionally, AB 1603 would prohibit the use of pesticides containing PFAS substances beginning on January 1, 2030. This bill has been referred to the Assembly Environmental Substances and Toxic Materials Committee.
- iv. **Ongoing bill tracking** – Bills supported/opposed/holding are summarized below. Bills relevant to the District's business are enclosed for reference.

Bill	Description	Author(s)	Sponsor	Board Action
AB 35	Would exempt Prop 4 funding from review under the Administrative Procedure Act.	Alvarez	ACWA	Support
AB 1893	accessible firefighting infrastructure	Gallagher/Shultz	CVWD/PID	Sponsor
AB 2180	Codify rate-setting precedent based on various rate cases	Ward	ACWA	Support
SB 872	Would establish the Delta Levees and Canal Subsidence Fund and allocate \$150 million annually to DWR through 2046-27 fiscal year for capital improvements.	McNerney	State Water Contractors/Restore the Delta	Support
SB 1001	Beginning July 1, 2028, would require CalOES to issue (upon request) a Personal Identity Verification-Interoperable (PIV-I) credential to water utility workers.	Archuleta	ACWA-JPIA	Support
SB 1153	Define wildfire-related liability for water agencies and require related emergency response plans implemented by Jan 2028	Caballero	ACWA	Support
SB 1313	Provides a dedicated path for PFAS treatment and mitigation funding through SWRCB.	McNerney		Support
SB 1417	Prohibits mutual water companies from charging or billing customers without proper notice. Any cost increase of more than 20% would require a public meeting notice.	Perez		Hold

a. Grants and budget requests

- i. Grants and budget requests pursued by the District and their current status are summarized below.

Grant	Agency	Total Amount	CVWD Share	Status
<i>Measure W Technical Resources Program</i>	Los Angeles County	\$400,000	\$400,000	Pending Award
<i>Hazard Mitigation Plan Update</i>	CalOES/FEMA	\$165,000	\$55,050	Pending CalOES Review
<i>HMF Advance Assistance - Seismic Study</i>	CalOES/FEMA	\$886,130	\$221,533	Pending FEMA Review
<i>HMF Stationary Generators (Paschall)</i>	CalOES/FEMA	\$1,137,885	\$284,471	Pending FEMA Review
<i>Prop 84 Retention</i>	DWR / LA County	\$65,230	\$65,230	Distributed
<i>AMI Enhancement - 2-inch meters</i>	US Bureau of Reclamation	\$100,000	\$100,000	Pending Final Award
<i>Wildfire - Cost Reimbursement</i>	FEMA	\$84,000	\$84,000	Distributed

Budget Request	Office	Total Amount	CVWD Share	Status
<i>FY 2027 State Funding</i>	Assemblymembers Shultz/Harabedian	\$3,500,000	\$3,500,000	Submitted
<i>FY 2027 State Funding</i>	State Senator Perez	\$4,000,000	\$4,000,000	Submitted
<i>FY 2027 Community Federal Funding</i>	US Congressman Friedman	\$1,300,000	\$1,300,000	Pending House Subcommittee on Interior-Environment Decision
<i>FY 2027 Community Federal Funding</i>	US Congressman Chu	\$1,300,000	\$1,300,000	Submitted

1st House				2nd House							

Summary: The Safe Drinking Water, Wildfire Prevention, Drought Preparedness, and Clean Air Bond Act of 2024, approved by the voters as Proposition 4 at the November 5, 2024, statewide general election, authorized the issuance of bonds in the amount of \$10,000,000,000 pursuant to the State General Obligation Bond Law to finance projects for safe drinking water, drought, flood, and water resilience, wildfire and forest resilience, coastal resilience, extreme heat mitigation, biodiversity and nature-based climate solutions, climate-smart, sustainable, and resilient farms, ranches, and working lands, park creation and outdoor access, and clean air programs. Current law authorizes certain regulations needed to effectuate or implement programs of the act to be adopted as emergency regulations in accordance with the Administrative Procedure Act, as provided. Current law requires the emergency regulations to be filed with the Office of Administrative Law and requires the emergency regulations to remain in effect until repealed or amended by the adopting state agency. This bill, notwithstanding the above, would exempt the adoption of regulations needed to effectuate or implement programs of the act from the requirements of the Administrative Procedure Act, as provided. The bill would require a state entity that receives funding to administer a competitive grant program established using the Administrative Procedure Act exemption to do certain things, including develop draft project solicitation and evaluation guidelines and to submit those guidelines to the Secretary of the Natural Resources Agency, except as provided. The bill would require the Secretary of the Natural Resources Agency to post an electronic form of the guidelines submitted by a state entity and the subsequent verifications on the Natural Resources Agency's internet website.

Summary: The Ralph M. Brown Act, requires, with specified exceptions, that all meetings of a legislative body, as defined, of a local agency be open and public and that all persons be permitted to attend and participate. Current law, until January 1, 2026, authorizes the legislative body of a local agency to use alternative teleconferencing if, during the teleconference meeting, at least a quorum of the members of the legislative body participates in person from a singular physical location clearly identified on the agenda that is open to the public and situated within the boundaries of the territory over which the local agency exercises jurisdiction, and the legislative body complies with prescribed requirements. Current law requires a member to satisfy specified requirements to participate in a meeting remotely pursuant to these alternative teleconferencing provisions, including that specified circumstances apply. Current law establishes limits on the number of meetings a member may participate in solely by teleconference from a remote location pursuant to these alternative teleconferencing provisions, including prohibiting such participation for more than 2 meetings per year if the legislative body regularly meets once per month or less. This bill would extend the alternative teleconferencing procedures until January 1, 2030.

Summary: Current law charges the Office of Emergency Services (OES) with coordinating various emergency activities within the state. The California Emergency Services Act, contingent upon an appropriation by the Legislature, requires the OES to enter into a joint powers agreement pursuant to the Joint Exercise of Powers Act with the Department of Forestry and Fire Protection to develop and

administer a comprehensive wildfire mitigation program relating to structure hardening and retrofitting and prescribed fuel modification activities. Current law authorizes the joint powers authority to establish financial assistance limits and matching funding or other recipient contribution requirements for the program, as provided. This bill, contingent upon appropriation by the Legislature, would establish the Rural Water Infrastructure for Wildfire Resilience Program within the OES for the distribution of state matching funds to urban wildland interface communities, as defined, in designated high fire hazard severity zones or very high fire hazard severity zones to improve water system infrastructure, as prescribed. The bill would require the OES to work in coordination with the Department of Water Resources, the State Water Resources Control Board, the Office of the State Fire Marshal, and other state entities as the OES determines to be appropriate, to achieve the purposes of the program.

Summary: Current federal law, the Consolidated Appropriations Act, 2021 requires the federal Department of Health and Human Services to carry out a Low-Income Household Drinking Water and Wastewater Emergency Assistance Program, which is also known as the Low Income Household Water Assistance Program, for making grants to states and Indian tribes to assist low-income households that pay a high proportion of household income for drinking water and wastewater services, as provided. Current law requires the Department of Community Services and Development to administer the Low Income Household Water Assistance Program in this state, and to receive and expend moneys appropriated and allocated to the state for purposes of that program, pursuant to the above-described federal law. The Low Income Household Water Assistance Program was only operative until March 31, 2024. This bill would repeal the above-described requirements related to the Low Income Household Water Assistance Program.

Summary: The Stormwater Resource Planning Act requires the State Water Resources Control Board, by July 1, 2016, to establish guidance for purposes of the act. This bill would require the board, by December 1, 2026, to develop recommendations for stormwater capture and use for the irrigation of urban public lands, as defined. The bill would require the recommendations to address, but not be limited to, opportunities for the use of captured stormwater for irrigation to offset the use of potable water, as specified, and recommendations for, among other things, pathogens and pathogen indicators and total suspended solids. Prior to approving the recommendations, the bill would require the board to solicit and receive written public comment on proposed recommendations.

Summary: The California Safe Drinking Water Act (state act) requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health. The state board's duties include, but are not limited to, enforcing the federal Safe Drinking Water Act (federal act) and adopting and enforcing regulations. Current law authorizes the state board to adopt as an emergency regulation, a regulation that is not more stringent than, and is not materially different in substance and effect than, the requirements of a regulation promulgated under the federal act, with a specified exception. This bill would provide that the authority of the state board to adopt an emergency regulation pursuant to these provisions includes the authority to adopt requirements of a specified federal regulation that was in effect on January 19, 2025, regardless of whether the requirements were repealed or amended to be less stringent. The bill would prohibit an emergency regulation adopted pursuant to these provisions from implementing less stringent drinking water standards, as provided, and would authorize the regulation to include monitoring requirements that are more stringent than the requirements of the federal regulation. The bill would prohibit maximum contaminant levels and compliance dates for maximum contaminant levels adopted as part of an emergency regulation from being more stringent than the maximum contaminant levels and compliance dates of a regulation promulgated pursuant to the federal act.

Summary: Current law requires that a local agency that maintains an internet website for use by the public to ensure that the internet website uses a ".gov" top-level domain or a ".ca.gov" second-level domain no later than January 1, 2029. Current law requires that a local agency that maintains public email addresses to ensure that each email address provided to its employees uses a ".gov" domain name or a ".ca.gov" domain name no later than January 1, 2029. Current law defines "local agency" for these purposes as a city, county, or city and county. This bill would recast these provisions by instead requiring a city, county, or city and county to comply with the above-described domain requirements and by deleting the term "local agency" from the above-described provisions. The bill would also

require a special district, joint powers authority, or other political subdivision to comply with similar domain requirements no later than January 1, 2031.

1st House				2nd House				Conc.			

Summary: Current law requires the Department of Water Resources to periodically review the groundwater sustainability plans developed by groundwater sustainability agencies pursuant to the act to evaluate whether a plan conforms with specified laws and is likely to achieve the sustainability goal for the basin covered by the plan. Current law requires a groundwater sustainability agency to evaluate its groundwater sustainability plan periodically. This bill would require a groundwater sustainability agency to, at least once every 7 years, review, and update if appropriate, its sustainable yield to ensure that the sustainable yield is based on the best available information and best available science, as defined, and will achieve sustainable groundwater management. The bill would also require a groundwater sustainability agency to provide an opportunity for public review and comment before making a determination whether to update its sustainable yield. To the extent that these requirements impose additional duties on groundwater sustainability agencies that are local agencies, the bill would impose a state-mandated local program.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA requires a lead agency that is preparing an environmental impact report, a negative declaration, or making other determinations, to provide public notice of that fact within a reasonable period of time, as provided. CEQA requires a lead agency to give notice to the last known name and address of all organizations and individuals who have previously requested notice, and to give notice by posting the notice on the internet website of the lead agency, and to give notice through one of 3 different procedures, including direct mailing to the owners and occupants of contiguous property shown on the latest equalized assessment roll. Existing law also requires, for a project involving the burning of municipal wastes, hazardous waste, or refuse-derived fuel, to give notice by direct mailing to the owners and occupants of property within 1/4 of a mile of any parcel or parcels, as specified. This bill would authorize a lead agency to satisfy the direct mailing requirements listed above by electronic mail if the recipient affirmatively requested to receive notice by electronic mail.

Summary: Existing law requires the State Energy Resources Conservation and Development Commission to biennially adopt an integrated energy policy report, as specified, and to make the reports accessible to state, local, and federal entities and to the general public. This bill would require the commission to establish a process for the owner of a data center, as defined, to submit specified information to the commission, including, among other information, the data center's location and size, the data center's power usage effectiveness, as defined, water usage effectiveness, as defined, and total water consumption, and the quantity of fuel consumed by onsite generators or other fuel-based energy systems, as specified. The bill would require the owner of a data center to submit the required information in the manner and timeframe specified by the commission. The bill would require the commission, beginning with the 2029 edition of the integrated energy policy report, and in each subsequent edition, to include an assessment of electrical load trends for data centers, as provided. The bill would require the commission to annually publish the information submitted in an anonymized and aggregated format on its internet website.

Summary: Existing law generally regulates the use of pesticides, and requires every manufacturer of, importer of, or dealer in any pesticide, except as specified, to obtain a certificate of registration from the Department of Pesticide Regulation before the pesticide is offered for sale. Existing law requires the Director of Pesticide Regulation to endeavor to eliminate from use in the state any pesticide that endangers the agricultural or nonagricultural environment, is not beneficial for the purposes for which it is sold, or is misrepresented. Existing law prohibits, except as provided, a person from using or possessing a restricted material for any agricultural use except under a written permit of the county agricultural commissioner, as specified. Existing law provides that a violation of certain provisions relating to pesticides, or regulations issued pursuant to those provisions, is a misdemeanor. This bill would prohibit the department from registering a pesticide that has not been previously registered by the department and contains perfluoroalkyl and polyfluoroalkyl substances (PFAS), as defined, that are intentionally added as active, adjuvant, or inert ingredients.

Summary: The Housing Accountability Act prohibits a local agency from disapproving, or conditioning approval in a manner that renders infeasible, a housing development project, as defined for purposes of the act, for very low, low-, or moderate-income households or an emergency shelter unless the local agency makes specified written findings based on a preponderance of the evidence in the record. The

act requires a housing development project to be subject only to the ordinances, policies, and standards adopted and in effect when a preliminary application, as specified, was submitted, except as otherwise provided. The act defines "ordinances, policies, and standards" to include general plan, community plan, specific plan, zoning, design review standards and criteria, subdivision standards and criteria, and any other rules, regulations, requirements, and policies of a local agency, as defined, including those relating to development impact fees, capacity or connection fees or charges, permit or processing fees, and other exactions. This bill would include in the definition of "ordinances, policies, and standards" materials requirements, postentitlement permit standards, and any rules, regulations, determinations, and other requirements adopted or implemented by other public agencies, as defined.

AB 1754 (Pacheco D) State general obligation bonds: requirements.

Current Text: Introduced: 2/9/2026 [html](#) [pdf](#)

Introduced: 2/9/2026

Status: 3/19/2026-From committee: Do pass and re-refer to Com. on APPR. with recommendation: To Consent Calendar. (Ayes 18. Noes 0.) (March 18). Re-referred to Com. on APPR.

Location: 3/18/2026-A. APPR.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The State General Obligation Bond Law generally sets forth the procedures for the issuance and sale of bonds governed by its provisions and for the disbursement of the proceeds of the sale of those bonds. Current law specifies various provisions required for inclusion in a bond act. Current law requires any state bond measure approved on or after January 1, 2004, to be subject to an annual reporting process, with the head of the lead state agency administering the bond proceeds reporting certain information about the projects being funded to the Legislature and the Department of Finance. Current law permits this information to be provided on the agency's internet website or the state's open data portal under certain circumstances. Current law authorizes the costs of the report to be included in the cost of administering the bond act unless prohibited by the bond act. For any state general obligation bond measure that is approved by voters on and after January 1, 2027, this bill would require a bond act to include specified information about the objectives of the bond expenditure and related data. The bill would also require the head of the lead state agency administering the bond to post on its internet website a notification that contains, among other information, details about the programs and projects authorized to be funded by the bond. The bill would require each state agency subject to these provisions to provide a written report to the Department of Finance, the Legislative Analyst, and specified legislative committees that contains certain information regarding the general obligation bond, in accordance with the above-described provision permitting this information to be provided on the agency's internet website or the state's online data portal.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law, until January 1, 2030, generally prohibits a person from possessing, importing, shipping, or transporting in the state, or from placing, planting, or causing to be placed or planted in any water in the state, invasive mussels. Existing law requires a public or private agency that operates a water supply system to cooperate with the Department of Fish and Wildlife to implement measures to avoid infestation by invasive mussels and to control or eradicate any infestation that may occur in a water supply system. Existing law requires, if invasive mussels are detected, the operator of a water supply system to, in cooperation with the department, prepare and implement a plan to control or eradicate invasive mussels within the system, and eliminate or minimize any potential downstream transport of an invasive mussel. Existing law requires, on or before December 31, 2026, the department to review all approved plans and require all plans that do not specifically address all invasive mussel species known to be present in bodies of water in the state as of January 1, 2026, to be updated or revised appropriately to include all invasive mussel species, on or before September 30, 2027. Existing law requires every invasive mussel species to be addressed in a plan no later than 180 days from the date that the species is listed in a certain regulation. Existing law defines "invasive mussel" for these purposes as any nonnative detrimental mussel, as provided. Under existing law, except as otherwise provided, any violation of the Fish and Game Code, or of any rule, regulation, or order made or adopted under the code, is a crime. This bill would require the department to require water supply system operators to update their plans to address all invasive mussel species present in the operator's water system as of January 1, 2026, as provided.

Summary: The California Public Records Act requires each state or local agency, upon a request for a copy of records that reasonably describes an identifiable record or records, to make the records promptly available to any person upon payment of fees covering direct costs of duplication, or a statutory fee if applicable, except with respect to public records exempt from disclosure by express provisions of law. Existing law requires each agency, within 10 days of a request for a copy of records, to determine whether the request seeks copies of disclosable public records in possession of the agency and to promptly notify the person of the determination and the reasons therefor. Existing law authorizes that time limit to be extended by no more than 14 days under unusual circumstances, as defined. This bill would instead require each agency to determine whether the request seeks copies of disclosable public records in possession of the agency and to promptly notify the person as described above within 10 business days of a request for a copy of records.

1st House				2nd House							

Summary: Existing law requires, by July 1, 2030, a water supplier, as defined, to have access to sufficient backup energy sources to operate critical fire suppression infrastructure, as defined, needed to supply water for at least 24 hours for the purpose of fire suppression in high or very high fire hazard severity zones in the County of Ventura, or to have access to alternative sources of water supplied by a different water supplier or agency that can serve this same purpose of supplying backup water to critical wells and water pumps for 24 hours, as provided. Existing law authorizes a water supplier that uses a backup energy source that is not permanent and stationary to use mobile backup energy sources or procure an energy source via an established mutual aid agreement provided that the backup energy source can provide power within 12 hours of the National Weather Service alerting the County of Ventura of a red flag warning and provide power for at least 24 hours after a loss of power and within 60 minutes of a loss of power. Existing law requires, if any fire damages and makes uninhabitable more than 10 residential dwellings within the service area of a water supplier, a report be made by the Ventura County Fire Department in cooperation with the water supplier, as specified. This bill would authorize a water supplier to use a backup energy source that is not permanent or stationary, provided that the backup energy source can, among other things, provide power within 90 minutes of a loss of power, or as soon as practically possible after deenergization. The bill would require a water supplier that uses a backup energy source that is not permanent and stationary to notify the Ventura County Office of Emergency Services as soon as practically possible, but no later than 72 hours after a loss of power, if that backup energy source does not provide power within 90 minutes of a loss of power.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law establishes various protections for California Native American tribes, including prohibiting a public agency or private party using or occupying public property or operating on public property from interfering with the free expression or exercise of Native American religion as provided in the United States Constitution and the California Constitution. Current law also requires a local government to provide formal notification to each California Native American tribe that is traditionally and culturally affiliated with the project site as an invitation to consult on the proposed project, as provided. Existing law requires the local government, during the consultation, to give deference to the tribal information, tribal knowledge and customs, and the significance of the resource to the California Native American tribe. Current law prohibits any information, as described, that is submitted by a California Native American tribe during the environmental review process from being included in the

environmental document or otherwise disclosed by the lead agency or any other public agency to the public, as specified, without the prior consent of the tribe that provided the information. This bill, the California Indian Freedom Act of 2026, would prohibit a governmental agency from substantially burdening a California Indian or California Native American tribe's exercise of religious beliefs or spiritual practices, including their access to and use of sacred sites and objects, and their ability to perform religious ceremonies and rites, even if the burden results from a rule of general applicability, unless the governmental agency demonstrates that application of the burden is in furtherance of a compelling governmental interest and is in the least restrictive means of furthering that interest. The act would apply to all state and local government actions, including, among others, permitting decisions, land use approvals, and enforcement actions. The bill would authorize a California Indian or tribe to assert a violation of these provisions as a claim or defense in any judicial or administrative proceeding, as specified. Before any governmental agency undertakes, approves, permits, funds, or authorizes a project that may impact a sacred site or cultural landscape, the bill would require the governmental agency to engage in early, meaningful and good-faith government-to-government consultation with an affected tribe.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
								Conf.			
1st House				2nd House				Conc.			

Summary: Existing law requires the Department of Forestry and Fire Protection to establish a local assistance grant program for fire prevention and home hardening education activities in California and extends eligibility for grants to specified entities, including local agencies. Existing law provides that eligible activities under the local assistance grant program include, among other things, technical assistance to local agencies to improve fire prevention and reduce fire hazards and projects to improve public safety, including, but not limited to, access to emergency equipment and improvements to public evacuation routes. Existing law makes funding for this program subject to an appropriation by the Legislature. This bill would expand eligible activities under the local assistance grant program to include projects undertaken by a local governmental entity involving the acquisition or installation of mobile rigid dip tanks or similar mobile and permanent infrastructure that is capable of providing helicopter-accessible water supplies for firefighting response or suppression purposes in very high fire and high fire hazard severity zones, as provided.

Summary: Existing law, until January 1, 2030, generally prohibits a person from possessing, importing, shipping, or transporting in the state, or from placing, planting, or causing to be placed or planted in any water within the state, invasive mussels, and authorizes the Director of Fish and Wildlife, or the director's designee, to engage in various enforcement activities with regard to invasive mussels. Existing law, until January 1, 2030, requires a public or private agency that operates a water supply system to cooperate with the department to implement measures to avoid infestation by invasive mussels and to control or eradicate any infestation that occurs in a water supply system. Existing law requires any person, or federal, state, or local agency, district, or authority that owns or manages a reservoir, where specified activities are permitted, except as specified, to develop and implement a program designed to prevent the introduction of invasive mussel species, as provided. Existing law requires any entity that discovers invasive mussels within the state to immediately report the

discovery to the Department of Fish and Wildlife. This bill would provide that, notwithstanding any other law, the state has exclusive authority to regulate invasive mussels. The bill would prohibit a city, county, district, or other local agency from adopting, enforcing, or implementing any ordinance, rule, regulation, policy, or other declaratory action pertaining to invasive mussels unless expressly authorized by state law.

1st House				2nd House							

Summary: Under existing law, anyone who personally uses a firearm in the commission of a specified felony offense shall be punished by an additional and consecutive term of imprisonment in the state prison for 10 years, or by 20 years if they discharge the firearm, or by imprisonment for 25 years to life if they discharge the firearm and proximately causes great bodily harm. Existing law prohibits the application of these firearm enhancements to the lawful use or discharge of a firearm by a peace officer, under specified circumstances, or by any person in lawful self-defense, lawful defense of another, or lawful defense of property. This bill would, notwithstanding the exemption above, prohibit the application of these firearm enhancements to a peace officer, as defined, unless the use or discharge of the firearm did not arise out of and was not in the course of employment. The bill would place the burden of proving by a preponderance of the evidence on the prosecution that the firearm enhancements apply to a peace officer. The bill would define "arise out of and in the course of employment" for these purposes.

1st House				2nd House				Conc.			

Summary: The Planning and Zoning Law requires a city or county to adopt a general plan for land use development within its boundaries that includes, among other things, a housing element. The Housing Accountability Act, among other things, when a housing development project, as defined, that complies with applicable, objective general plan, zoning, and subdivision standards and criteria in effect at the time that the application was deemed complete, requires a local agency that proposes to disapprove that development, or to impose a condition that the project be developed at a lower density, to base its decision on written findings supported by a preponderance of the evidence that specified conditions exist. That act, however, sets forth certain limitations with respect to its requirements, including providing that the act does not prohibit a local agency from requiring the housing development project to comply with objective, quantifiable, written development standards, conditions, and policies appropriate to, and consistent with, meeting the jurisdiction's share of the regional housing need. The act provides for enforcement of its provisions by an enforcement action brought by the applicant, a person who would be eligible to apply for residency in the housing development, or a housing organization, as provided. This bill would, under the act, prohibit a plan, entitlement, or permit that has been approved by a previous local utility or agency from being overturned or revised by a subsequent agency, unless the development proponent makes a material change to the project, as described, and except as specified.

1st House				2nd House				Conc.			

Summary: Existing law requires the State Fire Marshal to identify areas in the state as moderate, high, and very high fire hazard severity zones based on consistent statewide criteria and based on the severity of fire hazard that is expected to prevail in those areas. This bill would require a community water system that services more than 100 customers that are located in a high or very high fire risk area, as defined, to include an annex to its disaster preparedness plans, as provided, that includes information regarding system preparedness and resiliency during a wildfire. The bill would require the annex to contain several things, including, among others, an assessment that identifies the minimum number of and type of water pumps that are necessary to maintain average daily capacity, including, but not limited to, the operation of fire hydrant systems at the rated capacity.

1st House				2nd House				Conc.			

Summary: Existing law declares that all water within the state is the property of the people of the state, but the right to the use of the water may be acquired by appropriation in the manner provided by law. Existing law requires the appropriation to be for some useful or beneficial purpose. Existing law

provides, however, that the diversion of floodflows for groundwater recharge does not require an appropriative water right if certain conditions are met, including that a local or regional agency that has adopted a local plan of flood control or has considered flood risks as part of its most recently adopted general plan has given notice, as provided, of imminent risk of flooding and inundation of lands, roads, or structures. Existing law defines "floodflow" for these purposes to include circumstances in which flows would inundate ordinarily dry areas in the bed of a terminal lake to a depth that floods dairies and other ongoing agricultural activities, or areas with substantial residential, commercial, or industrial development. Existing law applies those requirements to diversions commenced before January 1, 2029. Existing law prohibits an entity from substantially diverting or obstructing the natural flow of, or substantially changing or using any material from the bed, channel, or bank of, any river, stream, or lake, or from depositing or disposing of certain material where it may pass into any river, stream, or lake, without first notifying the Department of Fish and Wildlife of that activity, and entering into a lake or streambed alteration agreement if required by the department to protect fish and wildlife resources, except as specified. This bill would revise and recast those conditions required for the appropriative water right exemption for a diversion of floodflows for groundwater recharge, would apply the requirements to a diversion commenced at anytime, and would further exempt those diversions from the requirements of the California Environmental Quality Act (CEQA) and requirements relating to lake or streambed alteration agreements, subject to conducting tribal consultation, as provided.

1st House				2nd House							

Summary: Existing law, until January 1, 2030, generally prohibits a person from possessing, importing, shipping, or transporting in the state, or from placing, planting, or causing to be placed or planted in any water within the state, invasive mussels, as defined. Existing law requires a public or private agency that operates a water supply system to cooperate with the Department of Fish and Wildlife to implement measures to avoid infestation by invasive mussels and to control or eradicate any infestation that may occur in a water supply system, and, if invasive mussels are detected, to prepare and implement a plan, as specified, to control or eradicate invasive mussels within the system. Existing law prohibits the importation, transportation, possession, or live release of specified wild animals, except under a revocable, nontransferable permit, known as a restricted species permit, issued by the department, in cooperation with the Department of Food and Agriculture, and only if certain requirements are met. Existing law authorizes the department to issue permits, commonly known as scientific collecting permits, to take or possess any form of plant or animal life for scientific, educational, or propagation purposes. This bill would exempt from the requirement to obtain a restricted species permit a public or private agency that operates a water supply system for maintenance and operational activities to control the spread of golden mussels in the water supply system, as specified. This bill would require the department's Invasive Species Program, through the Golden Mussel Task Force convened by the department, to develop and adopt, by April 1, 2027, best management practices for public and private agencies that operate water supply systems to control the spread of golden mussels, as specified, and would encourage those public and private agencies to comply with those best management practices.

Summary: The Local Agency Public Construction Act sets forth procedures that a local agency is required to follow when procuring certain services or work. Existing law authorizes certain local agencies to engage in job order contracting, as prescribed. This bill would authorize the city council to award individual annual job order contracts, not to exceed \$500,000, as specified, for repair, remodeling, or other repetitive work to be done according to unit prices. The bill would prohibit, among other things, annual contracts from being awarded for any new construction. The bill would require the contracts to be awarded to the lowest responsible bidder and be based on plans and specifications for typical work.

1st House				2nd House							

Summary: Current law establishes in the Natural Resources Agency the Department of Forestry and Fire Protection, and requires the department to be responsible for, among other things, fire protection and prevention, as provided. Current law describes state responsibility areas as areas of the state in which the financial responsibility of preventing and suppressing fires has been determined by the State Board of Forestry and Fire Protection to be primarily the responsibility of the state. Current law requires the State Fire Marshal to classify lands within state responsibility areas into fire hazard severity zones and, by regulation, designate fire hazard severity zones and assign to each zone a rating reflecting the degree of severity of fire hazard that is expected to prevail in the zone, as provided. Current law also requires the State Fire Marshal to identify areas of the state as moderate, high, and very high fire hazard severity zones based on specified criteria. Current law requires, within 120 days of receiving a recommendation from the State Fire Marshal that identifies fire hazard severity zones, described above, a local agency to designate, by ordinance, fire hazard severity zones in its jurisdiction, as provided. This bill would, on or before January 1, 2028, and every 2 years thereafter, require the department or a local entity to conduct an assessment, as provided, of all undeveloped public lands for which it is primarily responsible for preventing and suppressing fires to ensure that the public land is not a severe fire hazard. The bill would require this assessment to be posted on the department's and local entity's internet website and would require a local entity conducting the assessment to submit its assessment to the department. The bill would require all public lands, on or before January 1, 2028, to have 200-foot firebreaks on all borders with private property.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law requires a plaintiff who files an action to comprehensively determine rights to extract groundwater from a basin to provide the court a draft notice of commencement of groundwater basin adjudication and a draft form answer to adjudication complaint, as specified. Existing law also requires a plaintiff to file, within a specified timeframe, a motion for approval of the draft notice and draft form answer. Under existing law, once the court approves the draft notice, the plaintiff is required to serve the notice, as specified. Following a court order approving both the notice and draft form answer and authorizing service thereof, existing law requires the plaintiff to take additional steps to provide notice to defendants including, but not limited to, mailing, by registered mail or certified mail, return receipt requested, the notice, complaint, and form answer to all holders of fee title to real property in the basin. Under existing law, if a return receipt is not received for a parcel of real property, the plaintiff must post a copy of the notice, complaint, and form answer in a conspicuous place on the real property. After completing these notice procedures, existing law requires the plaintiff to file a

notice of completion of the mailing with the court. Existing law permits a court to authorize any other procedures it finds appropriate and necessary to provide notice to persons who may hold groundwater rights in basin. This bill would impose additional requirements on a plaintiff when filing the notice of completion of mailing. The bill would require the plaintiff to include with the notice of completion an affidavit of the person who mailed the notice and the certified or registered mail delivery receipt for each parcel stating the date, time, and place of mailing. The bill would further require the notice to include as an attachment any certified or registered mail delivery receipts received as of the date of the filing.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. The Sustainable Groundwater Management Act requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources to be managed under a groundwater sustainability plan or coordinated groundwater plans, except as specified. Current law requires a groundwater sustainability plan to include various information relating to subsidence, as applicable. This bill would exempt from the requirements of CEQA a groundwater recharge project if the Secretary of the Natural Resources Agency determines the project would address subsidence. Because a lead agency would be required to determine whether a project qualifies for this exemption, the bill would impose a state-mandated local program.

1st House				2nd House							

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. Existing law requires a lead agency to be responsible for determining whether the project is exempt from CEQA and whether an environmental impact report, negative declaration, or mitigated negative declaration is required, as provided. Existing law, for certain projects, establishes a ministerial review process with modified environmental assessment procedures, as provided. This bill, notwithstanding the above-described provisions relating to determinations by a lead agency, would require an environmental impact report, negative declaration, or mitigated negative declaration for the development, operation, substantial modification, or substantial expansion of a project on land that is zoned to allow industrial uses and is in or within 1 / 2 mile of an overburdened community, as defined.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Constitution specifies various requirements with respect to the levying of assessments and property-related fees and charges by a local agency. As part of those requirements, the California Constitution mandates that such fees or charges that are extended, imposed, or increased satisfy certain requirements, including, but not limited to, that the amount of the fee or charge imposed upon any parcel or person as an incident of property ownership not exceed the proportional cost of the service attributable to the parcel. Existing law, known as the Proposition 218 Omnibus Implementation Act (act), prescribes specific procedures and parameters for local jurisdictions to comply with these requirements and, among other things, authorizes an agency providing water, wastewater, sewer, or refuse collection services to adopt a schedule of fees or charges authorizing automatic adjustments that pass through increases in wholesale charges for water, sewage treatment, or wastewater treatment or adjustments for inflation under certain circumstances. This bill would authorize a local government to demonstrate the proportional cost of the service attributable to the parcel by any method that reasonably allocates the ascertainable cost of providing service to all parcels, if substantiated as provided. The bill would, however, provide that for water or sewer service fee or charge impositions, a local government is not required to provide an exact measure of the cost of the service at each parcel and may instead impose uniform or tiered rates to parcel or customer classes that are defined based on common characteristics indicative of likely water or sewer use.

Summary: Current law establishes various state water policies, including the policy that the use of water for domestic purposes is the highest use of water and the human right to water. This bill would declare that it is the established policy of the state to acknowledge and correct the inequities caused by state-sanctioned acts of termination, removal, and assimilation inflicted upon all California Native American tribes through compensation, legal recognition of rights, or replacement of benefits lost. The bill would require all relevant state agencies, including the Department of Water Resources and the State Water Resources Control Board, to consider and incorporate this policy when revising, adopting, or establishing rights, policies, regulations, permits, or grant criteria to address identified inequities.

1st House				2nd House				Conc.			

Summary: Existing law prescribes requirements for the disposal of surplus land by a local agency. Existing law provides that an agency is not required to follow certain requirements for the disposal of surplus land for "exempt surplus land," as defined. Under existing law, "exempt surplus land" includes surplus land that is subject to a valid legal restriction that is not imposed by the local agency and that makes housing prohibited, unless there is a feasible method to satisfactorily mitigate or avoid the prohibition on the site, as specified. Existing law specifies that valid legal restrictions for these purposes include existing leases, or other contractual obligations or restrictions, if the terms were agreed to prior to September 30, 2019. This bill would specify that the requirements of an option agreement are among the contractual obligations or restrictions described above.

Summary: Existing law requires the Wildfire and Forest Resilience Task Force, including the Natural Resources Agency, the California Environmental Protection Agency, the Office of Planning and Research, and the Department of Forestry and Fire Protection, in coordination with certain public agencies, to develop a comprehensive implementation strategy to track and ensure the achievement of the goals and key actions identified in California's Wildfire and Forest Resilience Action Plan, as provided. Existing law requires the task force, on or before March 1, 2026, and every 5 years thereafter, to update that action plan, as provided. Existing law establishes, in the Department of Conservation, a Regional Forest and Fire Capacity Program to support regional leadership to build local and regional capacity and develop, prioritize, and implement strategies and projects that create fire-adapted communities and landscapes, as provided. Existing law requires the department to, upon appropriation by the Legislature for purposes of the program, provide block grants to regional entities, as defined, to develop regional strategies that develop governance structures, identify wildfire risks, foster collaboration, and prioritize and implement projects within the region to achieve the goals of the program, as specified. Existing law authorizes the regional entities, as defined, to implement activities pursuant to this program, directly or by providing subgrants or contracts, and collaborative planning efforts with local entities to accomplish development of regional priority strategies, among other objectives. Existing law authorizes the department, until July 1, 2025, to authorize advance payments of grants awarded pursuant to the program. This bill would authorize the Director of the Department of

Conservation to directly award regional landscape grants to regional entities to implement the above-described regional priority strategies.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Safe Drinking Water and Toxic Enforcement Act of 1986 prohibits a person, in the course of doing business, from knowingly and intentionally exposing any individual to a chemical known to the state to cause cancer or reproductive toxicity without giving a specified warning, or from knowingly discharging or releasing that chemical into water, or into or onto land and passing into any source of drinking water, except as specified. The act authorizes a person, acting in the public interest, to bring an action to enforce the requirements of the act if specified requirements are met. If there is a settlement of an action brought by a person in the public interest the act requires the plaintiff to submit the settlement to the court for approval upon noticed motion, and authorizes the court to approve the settlement only if the court makes specified findings, as provided. This bill would additionally require the court to find that the settlement provides a public benefit and is in the public interest. The bill would further require, under a specified circumstance, the court to find that the settlement would require the defendant to reduce the exposure to the listed chemical from the level that existed before the settlement or provide a warning that complies with the act if that warning was not provided previously.

AB 2619 (Papan D) Water resources: data centers.

Current Text: Introduced: 2/20/2026 [html](#) [pdf](#)

Introduced: 2/20/2026

Status: 3/9/2026-Referred to Coms. on W., P., & W. and L. GOV.

Location: 3/9/2026-A. W.,P. & W.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law authorizes the legislative body of an incorporated city and the county board of supervisors to license businesses carried on within their respective jurisdictions and to set license fees, as specified. This bill would require a person who owns or operates a data center, prior to applying to a city or a county for an initial business license, equivalent instrument, or permit, to provide its water supplier, under penalty of perjury, an estimate of the expected water use, the anticipated source of water, and the data center's projected water use volume for the maximum day, maximum month, and average year. When applying to a city or county for an initial business license, the bill would require a person who owns or operates a data center to report, under penalty of perjury, on the application, an estimate of the expected water use, the anticipated source of water, and the data center's projected water use volume for the maximum day, maximum month, and average year. When applying to a city or county for a renewal of a business license, equivalent instrument, or permit, the bill would require a person who owns or operates a data center to report, under penalty of perjury, on the application, the data center's annual water use for the preceding calendar year, including total water use, direct water use, and indirect water use, as prescribed. By expanding the crime of perjury, the bill would impose a state-mandated local program. The bill would define terms for purposes of these provisions. This bill contains other related provisions and other existing laws.

	1st House				2nd House						

Summary: Existing law authorizes the State Water Resources Control Board to adopt regulations requiring measurement and reporting of water diversion and use by persons, including, among others, those authorized to appropriate water under a permit, a license, a registration for small domestic, small irrigation, or livestock stockpond use, or a certificate for livestock stockpond use. For the initial regulations, existing law requires that they be adopted as emergency regulations and provides that the emergency regulations remain in effect until revised by the state board. Existing law also exempts the initial regulations from the California Environmental Quality Act. This bill would require, until January 1, 2032, that all further regulations adopted by the state board pursuant to these provisions be adopted as emergency regulations and remain in effect until revised by the state board, and would exempt them from the California Environmental Quality Act.

Summary: This bill would require a contract entered into by any state agency for the procurement of artificial intelligence (AI) products that require data enrichment services in their production, other than procurement related to a public works contract, to require that a contractor certify that nothing furnished to the state pursuant to the contract has been laundered or produced by certain types of labor, including sweatshop labor and forced labor, and would make conforming changes. The bill would define "data enrichment services" to mean services, including, but not limited to, content moderation, data labeling, model training and evaluation, AI Fauxtomation, and data annotation services, obtained as part of the deployment, creation, and testing of AI models in order to secure reliable and safe data. This bill contains other existing laws.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. This bill would make nonsubstantive changes to those findings and declarations and to the statement of intent. This bill contains other existing laws.

1st House				2nd House							

Summary: Existing law establishes in the Natural Resources Agency the Department of Water Resources. Existing law vests in the department powers, duties, purposes, responsibilities, and jurisdiction in matters pertaining to water or dams. Existing law declares the responsibility of the state to assist local governments in providing certain essential services and facilities where water resource construction projects financed, in whole or in part, by the state or by the state jointly with the federal government create an undue burden on a local area's ability to provide these services and facilities. Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health. Existing law declares it to be the established policy of the state that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumption, cooking, and sanitary purposes. This bill would establish in the State Treasury the Water Affordability and System Stabilization Fund for holding the principal and income of the Water Affordability and System Stabilization Trust, which the bill would create. The bill would designate the Treasurer as trustee of the trust, as specified, and would require the trustee, among other things, to hold, manage, and invest the principal of the trust with the obligation of providing a growing perpetual source of annual funding to the Water Rate Assistance Fund, administered by the state board, and the Community Water Affordability Assistance Fund, administered by the department, beginning 25 years after the Legislature transfers funding from the General Fund to the Water Affordability and System Stabilization Fund.

1st House				2nd House							

Summary: The Safe Drinking Water, Wildfire Prevention, Drought Preparedness, and Clean Air Bond Act of 2024, approved by the voters as Proposition 4 at the November 5, 2024, statewide general election, authorized the issuance of bonds in the amount of \$10,000,000,000 pursuant to the State General Obligation Bond Law to finance projects for safe drinking water, drought, flood, and water resilience, wildfire and forest resilience, coastal resilience, extreme heat mitigation, biodiversity and nature-based climate solutions, climate-smart, sustainable, and resilient farms, ranches, and working lands, park creation and outdoor access, and clean air programs. The act makes \$135,000,000 available, upon appropriation by the Legislature, to the Office of Emergency Services for a wildfire mitigation grant program to provide, among other things, loans, direct assistance, and matching funds for projects that prevent wildfires, increase resilience, maintain existing wildfire risk reduction projects, reduce the risk of wildfires to communities, or increase home or community hardening. The act provides that eligible projects include, but are not limited to, grants to local agencies, state agencies, joint powers authorities, tribes, resource conservation districts, fire safe councils, and nonprofit organizations for structure hardening of critical community infrastructure, wildfire smoke mitigation, evacuation centers, including community clean air centers, structure hardening projects that reduce the risk of wildfire for entire neighborhoods and communities, water delivery system improvements for fire suppression purposes for communities in very high or high fire hazard areas, wildfire buffers, and incentives to remove structures that significantly increase hazard risk. This bill would include in the list of eligible projects grants to the above-mentioned entities for improvements to public evacuation routes in very high and high fire hazard severity zones, mobile rigid dip tanks, as defined, to support firefighting efforts, prepositioned mobile rigid water storage, as defined, and improvements to the response and effectiveness of fire engines and helicopters.

Summary: Would establish the Water Rate Assistance Program. As part of the program, the bill would establish the Water Rate Assistance Fund in the State Treasury, available upon appropriation by the Legislature, to provide water affordability assistance, for both residential water and wastewater services, to low-income residential ratepayers, as specified. The bill would require the state board to take various actions in administering the fund, including, among other things, tracking and managing revenue in the fund separately from all other revenue. The bill would require the State Water Resources Control Board, in consultation with relevant agencies and after a public hearing, to adopt guidelines for implementation of the program and to adopt an annual report to be posted on the state board's internet website identifying how the fund has performed, as specified. The bill would require the guidelines to include minimum requirements for eligible systems, including the ability to confirm eligibility for enrollment through a request for self-certification of eligibility under penalty of perjury. By expanding the crime of perjury, the bill would impose a state-mandated local program. The bill would require the state board to take various actions in administering the program, including, but not limited to, providing guidance, oversight, and funding for low-income rate assistance for residential ratepayers of eligible systems. The bill would authorize the Attorney General, at the request of the state board, to bring an action in state court to restrain the use of any method, act, or practice in violation of these provisions, except as provided. The bill would make the implementation of all of these provisions contingent upon an appropriation by the Legislature.

Summary: The State Water Resources Control Board and the 9 California regional water quality control boards regulate water quality and prescribe waste discharge requirements in accordance with

the Porter-Cologne Water Quality Control Act (act) and the National Pollutant Discharge Elimination System (NPDES) permit program. Under the act, the State Water Resources Control Board is authorized to adopt water quality control plans for waters for which quality standards are required by the federal Clean Water Act, as specified, and that in the event of a conflict, those plans supersede regional water quality control plans for the same waters. This bill would authorize the state board to adopt water quality control plans for nexus waters, which the bill would define as all waters of the state that are not also navigable, except as specified. The bill would require any water quality standard that was submitted to, and approved by, or is awaiting approval by, the United States Environmental Protection Agency or the state board that applied to nexus waters as of May 24, 2023, to remain in effect, as provided.

Summary: Current law establishes the Santa Monica Mountains Conservancy and prescribes the membership, functions, and duties of the conservancy regarding the acquisition, preservation, and improvement of real property within the Santa Monica Mountains Zone, as defined. Current law establishes within the conservancy the Upper Los Angeles River and Tributaries Working Group with designated membership of no more than 23 appointed representatives. Current law requires the working group to develop, through watershed-based planning methods and community engagement, a revitalization plan for the Upper Los Angeles River, the tributaries of the Pacoima Wash, Tujunga Wash, and Verdugo Wash, the Arroyo Seco, and any additional tributary waterway that the working group determines to be necessary. Current law requires the working group to submit the revitalization plan to the conservancy for adoption, and requires the conservancy to submit a copy of the revitalization plan to the Assembly Committee on Water, Parks, and Wildlife and the Senate Committee on Natural Resources and Water, as specified. This bill would add an additional member to the working group, for a total of no more than 24 appointed representatives. The bill would require one of the representatives appointed to the working group to represent the city council district within the City of Los Angeles with the greatest number of Upper Los Angeles River miles. The bill would require the working group to meet at least once each year to evaluate and report on implementation of the revitalization plan to the conservancy, and propose amendments to the revitalization plan to the conservancy for adoption.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law, the Sacramento-San Joaquin Delta Reform Act of 2009, declares that the Sacramento-San Joaquin Delta (Delta) is a critically important natural resource for California and the nation and it serves as both the hub of the California water system and the most valuable estuary and wetland ecosystem on the west coast of North and South America. Existing law establishes in the Natural Resources Agency the Department of Water Resources. Existing law requires the department and the Department of Fish and Wildlife to determine the principal options for the Delta and requires the department to evaluate and comparatively rate each option for its ability to do specified things,

including, among others, to maintain Delta water quality for Delta users, and to preserve, protect, and improve Delta levees. Existing law establishes in the agency the Sacramento-San Joaquin Delta Conservancy. Existing law requires the conservancy to act as a primary state agency to implement ecosystem restoration in the Delta and to support efforts that advance environmental protection and the economic well-being of Delta residents. This bill would establish the Delta Levees and Canal Subsidence Fund in the State Treasury and, upon appropriation, would make the moneys in the fund available to the Secretary of the Natural Resources Agency for expenditure consistent with the allocations described below. The bill would authorize the secretary to seek out, and the fund to accept, state moneys from, among other sources, any bond funds, the General Fund, or the Greenhouse Gas Reduction Fund. The bill would authorize the fund to accept moneys from nonstate sources, including federal and private moneys, and would continuously appropriate those moneys without regard to fiscal year, for allocation as described below, thereby making an appropriation.

Status: 4/7/2026-From committee with author's amendments. Read second time and amended. Re-referred to Com. on G.O.

Location: 2/11/2026-S. G.O.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Administrative Procedure Act governs the procedures for the adoption, amendment, or repeal of regulations by state agencies and for the review of those regulatory actions by the Office of Administrative Law. Existing law requires a state agency proposing to adopt, amend, or repeal an administrative regulation to, among other things, assess the potential for adverse economic impact on California business enterprises and individuals, and requires a state agency proposing to adopt, amend, or repeal a major regulation on or after November 1, 2013, to prepare and submit to the Department of Finance for comment, a standardized regulatory impact analysis, as provided. Existing law defines "major regulation" for purposes of the act to mean any proposed adoption, amendment, or repeal of a regulation subject to review by the office that will have an economic impact on California business enterprises and individuals in an amount exceeding \$50,000,000, as provided. Existing law establishes procedures for the adoption of emergency regulations, including requiring that the state agency make a finding that the adoption of a regulation or order of repeal is necessary to address an emergency, as defined. Under existing law, a regulation, amendment, or order of repeal adopted as an emergency regulatory action may only remain in effect for up to 180 days, unless the adopting agency complies with specified requirements. This bill, the Restoring Accountability Act, would prohibit a state agency from taking final action to adopt a major regulation until certain requirements are met, including that after the state agency prepares a standardized regulatory impact analysis and submits the analysis to the Department of Finance, as described above, the state agency submits a proposal to the Legislature recommending legislation to authorize the adoption of the major regulation and the Legislature enacts a law expressly authorizing the state agency to adopt that major regulation. The bill, notwithstanding that prohibition, would authorize a state agency to adopt an emergency regulation that is a major regulation if the state agency complies with specified requirements governing the adoption of emergency regulations.

1st House				2nd House							

Summary: The Municipal Water District Law of 1911 provides for the formation of municipal water districts and grants to those districts specified powers. Current law permits a district to acquire, control, distribute, store, spread, sink, treat, purify, recycle, recapture, and salvage any water for the beneficial use of the district, its inhabitants, or the owners of rights to water in the district. Current law, upon the request of certain Indian tribes and the satisfaction of certain conditions, requires a district to provide service of water at substantially the same terms applicable to the customers of the district to the Indian tribe's lands that are not within a district, as prescribed. Current law also authorizes a district, until January 1, 2027, under specified circumstances, to apply to the applicable local agency formation commission to provide this service of water to Indian lands, as defined, that are not within the district and requires the local agency formation commission to approve that application. This bill would extend the above provisions regarding the application to the applicable local agency formation commission to January 1, 2032.

1st House				2nd House							

Summary: The Administrative Procedure Act (APA) governs the procedures for the adoption, amendment, or repeal of regulations by state agencies and for the review of those regulatory actions by the Office of Administrative Law (OAL). The APA requires a state agency proposing to adopt, amend, or repeal an administrative regulation to, among other things, assess the potential for adverse economic impact on California business enterprises and individuals, and requires a state agency proposing to adopt, amend, or repeal a major regulation to prepare and submit to the Department of Finance for review, a standardized regulatory impact analysis, as provided. The APA defines "major regulation," for purposes of the act, to mean any proposed adoption, amendment, or repeal of a regulation subject to review by the OAL that will have an economic impact on California business enterprises and individuals in an amount exceeding \$50,000,000, as provided. The APA provides exceptions for emergency regulations in the case of a situation that calls for immediate action to avoid serious harm to the public peace, health, safety, or general welfare. This bill would prohibit a major regulation from taking effect until the Legislature enacts a law to approve the regulation, except as provided for emergency regulations.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The legislative code of ethics prohibits Members of the Legislature from entering into, or requesting that another party enter into, a nondisclosure agreement relating to the drafting, negotiation, or discussion of proposed legislation. Current law also makes any nondisclosure agreement relating to the drafting, negotiation, or discussion of proposed legislation entered into after January 1, 2026, void and unenforceable. Current law provides an exception for nondisclosure agreements, or portions thereof, that prevent only the disclosure of trade secrets, financial information, or proprietary information, as specified. This bill would prohibit a local government official acting in their official capacity from entering into, or requesting that another individual enter into, a nondisclosure agreement relating to public business that precludes their ability to share information with fellow local government officials serving on the same council, board, commission, district, or agency. The bill would require a local government official in violation of that provision to, among other things, disclose the existence of the nondisclosure agreement, as specified, and would provide that these requirements imposed on a local government official also apply to a local government official acting in their official capacity who entered into, or requested that another individual enter into, a nondisclosure agreement described above before January 1, 2027. By imposing additional duties on local government officials, the bill would impose a state-mandated local program. The bill would also make any nondisclosure agreement relating to public business that precludes the ability of a local government official to share information with fellow local government officials serving on the same council, board, commission, district, or agency and that is entered into after January 1, 2027, void and unenforceable.

Summary: Existing law authorizes officers of the Department of the California Highway Patrol, police departments, marshal's office or sheriff's office, and officers or employees of the Department of Forestry and Fire Protection or the Department of Fish and Wildlife designated as peace officers to close to all unauthorized persons an area where a menace to the public health or safety created by a calamity exists for the duration of the menace and the immediate area surrounding any emergency field command post or any other command post activated for the purpose of abating a calamity, riot, or other civil disturbance, as specified. Under existing law, an unauthorized person who enters or remains in a closed area, as prescribed, is guilty of a misdemeanor. This bill would, beginning on July 1, 2028, require the Office of Emergency Services, upon request, to issue a local agency, corporation, or mutual water company responsible for public works and critical infrastructure with specified credentialing to facilitate personnel access to an area during or following a natural disaster, act of terrorism, or other man-made disaster. The bill would specify that the credentialing, a Personal Identity Verification-Interoperable (PIV-I), would conform with the federal Personal Identity Verification standards pursuant to federal National Incident Management System guidelines.

1st House				2nd House							

Summary: The Healthy Workplaces, Healthy Families Act of 2014 entitles an employee who works in California for the same employer for 30 or more days within a year from the commencement of employment to paid sick days. Under existing law, an employee accrues paid sick days at a rate of not less than one hour per every 30 hours worked, subject to certain use, accrual, and yearly carryover limitations. This bill would entitle active firefighting members of specified fire departments who, after 20 weeks of gestation, give birth or have a stillbirth or miscarriage to 26 weeks of fully paid postpartum and recovery leave. The bill would require the leave to be granted without regard to length of service or employment classification and to begin immediately upon the childbirth, stillbirth, or miscarriage.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Mitigation Fee Act imposes various requirements with respect to the establishment, increase, or imposition of a fee by a local agency as a condition of approval of a development project, including requiring the local agency to identify the use to which the fee is to be put and determine how there is a reasonable relationship between the fee's use and the type of development project on which the fee is imposed. Current law also requires a local agency, upon receipt of a fee subject to these provisions, to deposit, invest, account for, and expend the fees as specified. This bill would additionally require any fee established, increased, or imposed to be based on the net impact on the need for the public facility being funded by the fee and account for whether the development project is removing or replacing an existing use or a previous use that existed at the time the fee was established, as specified.

1st House				2nd House							

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to be responsible for determining whether a project is exempt from CEQA and whether an environmental impact report, a negative declaration, or a mitigated negative declaration is required. Existing law requires a city or county that determines a certain type of project is subject to the requirements of CEQA to identify any public water system that may supply water for the project and to request those public water systems to prepare a specified water supply assessment, as provided. This bill would instead require a city or county, upon receipt of a preliminary application for a housing development project that meets certain conditions, or upon deeming a development application for certain projects complete, to make that identification of public water systems. The bill would require a city or county, within 15 days of receiving an application that meets either of the above-mentioned criteria, to request each identified public water system to determine whether the projected water demand associated with the proposed project was included in the most recently adopted urban water management plan.

Summary: The Administrative Procedure Act requires a state agency proposing to adopt, amend, or repeal an administrative regulation to assess the potential for adverse economic impact on California business enterprises and individuals and avoid the imposition of unnecessary or unreasonable regulations or reporting, recordkeeping, or compliance requirements. The act requires a state agency proposing to adopt, amend, or repeal a major regulation to satisfy additional requirements, including by requiring the state agency to prepare a standardized regulatory impact analysis in the manner prescribed by the Department of Finance, as specified, and requires the analysis to address certain items, including the creation or elimination of jobs within the state and the competitive advantages or disadvantages for businesses currently doing business within the state. This bill would require an agency, in estimating the economic impact of adopting, amending, or repealing a regulation, to identify and calculate any offsetting benefits, impacts, or savings that might result directly or indirectly from that adoption, amendment, or repeal and factor those benefits, impacts, or savings into its economic impact estimate.

Summary: Existing law requires the State Water Resources Control Board to develop a plan for the funding and implementation of the Low-Income Water Rate Assistance Program. Existing law requires the plan to include, among other things, a description of the method for collecting moneys to support and implement the program and a description of the method for determining the amount of moneys that may need to be collected from water ratepayers to fund the program. This bill would establish the Water Rate Assistance Program. As part of the program, the bill would establish the Water Rate Assistance Fund in the State Treasury, available upon appropriation by the Legislature, to provide

water affordability assistance for residential water services to low-income residential ratepayers, as specified. The bill would require the state board to take various actions in administering the fund, including, among other things, tracking and managing revenue in the fund separately from all other revenue. The bill would require the state board, in consultation with relevant agencies and after a public hearing, to adopt guidelines for implementation of the program and to adopt an annual report to be posted on the state board's internet website identifying how the fund has performed, as specified. The bill would require the guidelines to include minimum requirements for eligible systems, including the ability to confirm eligibility for enrollment through a request for self-certification of eligibility under penalty of perjury.

Summary: The Monterey Peninsula Water Management District Law establishes the Monterey Peninsula Water Management District. The act authorizes the district to, among other things, prohibit the use of district water during an emergency caused by drought, or other threatened or existing water shortage, for specific uses that the district finds to be nonessential. Existing law prohibits the use of potable water for the irrigation of nonfunctional turf located on commercial, industrial, and institutional properties, other than a cemetery, and on properties of homeowners' associations, common interest developments, and community service organizations or similar entities, as specified. Existing law requires a person or entity to be subject to civil liability or penalties by the State Water Resources Control Board, as prescribed, or to civil liability and penalties imposed by an urban water supplier, pursuant to a locally adopted ordinance or policy. Existing law authorizes a public water system, city, county, or city and county to enforce the provisions relating to the prohibition, as specified. This bill would require a person or entity to be subject to civil liability or penalties imposed by the Monterey Peninsula Water Management District pursuant to a locally adopted ordinance or policy.

Summary: The California Emergency Services Act requires all public water systems, as defined, with 10,000 or more service connections to review and revise their disaster preparedness plans in conjunction with related agencies, including, but not limited to, local fire departments and the Office of Emergency Services, to ensure that the plans are sufficient to address possible disaster scenarios. A person, as defined, who violates the provisions of this act is guilty of a misdemeanor. This bill, beginning January 1, 2028, would require all urban retail water suppliers, as defined, serving a high or very high fire hazard severity zone to include incident-specific response procedures for wildfires as part of their disaster preparedness plans, including any applicable emergency response plan as required by federal law. The bill would require these plans to include, among other things, mitigation actions, including actions, procedures, and equipment, that can obviate or significantly lessen the impact of a wildfire on the water system and the supply of drinking water provided by the water supplier.

Summary: The California Constitution provides that people have the right of access to information concerning the conduct of the people's business. Various provisions of existing law, including the California Public Records Act, the Bagley-Keene Open Meeting Act, and the Ralph M. Brown Act, provide, with some exceptions, for public access to government records and meetings of government bodies. Among those acts, the California Public Records Act defines "person" to include any natural person, corporation, partnership, limited liability company, firm, or association. This bill would specify that, for purposes of the California Public Records Act, the Bagley-Keene Open Meeting Act, the Ralph M. Brown Act, the Political Reform Act of 1974, the Administrative Procedure Act, and the California Environmental Quality Act (CEQA), "person," "interested person," "participant," "member of the public," as applicable, and any other similar terms under each act referring to those who may engage with governmental agencies, do not include artificial intelligence, as defined, systems, autonomous agents, robots, or other nonhuman entities, whether physical or digital. The bill would make findings and declarations related to these provisions.

1st House				2nd House				Conc.			

Summary: The Subdivision Map Act vests the authority to regulate and control the design and improvement of subdivisions in the legislative body of a local agency and sets forth procedures governing the processing, approval, conditional approval or disapproval, and filing of tentative maps, among other maps. Existing law requires a vesting tentative map to be filed and processed in the same manner as a tentative map, except as specified. The act generally requires a subdivider to file a tentative map with the local agency, as specified, and the local agency, in turn, to approve, conditionally approve, or disapprove the map within a specified time period. Under existing law, an approved tentative map expires 24 months after its approval or conditional approval. Existing law authorizes the approval or conditional approval to be extended up to 24 months pursuant to local ordinance, and by 48 months, as provided, if the subdivider is required to expend more than a certain amount of money to construct, improve, or finance the construction or improvement of public improvements outside the property boundaries of the tentative map, as provided. Existing law prohibits those extensions from extending the tentative map more than 10 years from its approval or conditional approval, except as specified. This bill would extend the initial expiration period of an approved or conditionally approved tentative map to 8 years and would extend the maximum expiration period to 16 years, except as provided.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: Existing law, the Ralph M. Brown Act, requires, with specified exceptions, that all meetings of a legislative body, as defined, of a local agency be open and public and that all persons be permitted to attend and participate. Existing law defines "meetings" for these purposes to mean any congregation of a majority of the members of a legislative body at the same time and location, as specified, to hear, discuss, deliberate, or take action on any item that is within the subject matter jurisdiction of the legislative body. This bill would define "majority" for purposes of the act to mean the number of members of the legislative body equaling more than half of the total number of seats on the legislative body. The bill would specify that if a seat on the legislative body is vacant, that seat is to still be counted as a seat on the legislative body. This bill contains other related provisions and other existing laws.

1st House				2nd House				Conc.			

Summary: The Mutual Water Company Open Meeting Act requires a board of directors of a mutual water company that operates a public water system to allow an eligible person, as defined, to personally attend a meeting of the board, if the eligible person gave the board at least 24 hours' advance written notice of their intent to personally attend the meeting. Existing law authorizes the board to allow an eligible person who was denied attendance at a meeting for failure to provide this notice, or because the number of eligible persons having already provided notice of attendance exceeds the room capacity of the place of the meeting, to attend the meeting by teleconference. Existing law requires the board to provide to an eligible person attending a meeting by teleconference a copy of the documents to be discussed at the meeting, except as specified. This bill would eliminate the 24-hour notice requirement for an eligible person to personally attend a meeting. The bill would authorize the board of directors of a mutual water company with less than 50 connections to use teleconferencing to provide any eligible person access to the meeting and would require a board of directors of a mutual water company with 50 or more connections to use teleconferencing to provide any eligible person access to the meeting.

Summary: Existing law defines an assault as an unlawful attempt, coupled with present ability, to commit a violent injury upon the person of another. Existing law defines a battery as any willful and unlawful use of force or violence upon the person of another. Under existing law, an assault or battery committed against specified professionals engaged in the performance of their duties, including peace officers, firefighters, and emergency medical personnel, is punishable by imprisonment in a county jail not exceeding one year, by a fine not exceeding \$2,000, or by both that fine and imprisonment. This bill would make an assault or battery committed against a utility worker, as defined, who is engaged in the performance of their duties punishable by imprisonment in a county jail not exceeding one year, by a fine not exceeding \$2,000, or by both that fine and imprisonment. By expanding the scope of these crimes, this bill would impose a state-mandated local program.

Summary: Existing law requires the State Board of Forestry and Fire Protection, on or before September 1, 2011, to adopt emergency regulations to establish a fire prevention fee in an amount not to exceed \$150 to be charged on each habitable structure on a parcel that is within a state responsibility area, as specified, and authorizes the board to annually adjust the fire prevention fee using prescribed methods. Existing law requires that the fire prevention fees collected, except as provided, be deposited into the State Responsibility Area Fire Prevention Fund and be made available to the board and the Department of Forestry and Fire Protection for certain specified fire prevention activities that benefit the owners of habitable structures in state responsibility areas who are required to pay the fee. Existing law, effective July 1, 2017, suspends the fire prevention fee and requires any moneys held in reserve in the fund to be appropriated by the Legislature in a manner consistent with the purposes of the fund. Existing law repeals the fire prevention fee program on January 1, 2031. This bill would reinstate the fire prevention fee effective January 1, 2027, subject to the January 1, 2031, repeal.

Contests, 5K Run and More – Hometown Country Fair Has It All

By CV Weekly on April 9, 2026 · 0 Comments

The pie-eating contest is just one of the many events people can take part in at the Hometown Country Fair.

Photo by Donna LIBRA

A pie-eating contest, food trucks, good music and the celebration of the CVWD 75th anniversary – all at the Hometown Country Fair.

By Mary O'KEEFE

The 20th Annual Hometown Country Fair (HTCF), hosted by the Crescenta Valley Chamber of Commerce (CVCOC), will be on April 25 from 9 a.m. to 4 p.m. at Crescenta Valley Park, 3901 Dunsmore Ave. This annual event, which is free for the public to attend, highlights the small town feel that makes Crescenta Valley so unique.

“This is a great way for the community to come together,” said Robert Manciero, vice president of CVCOC and HTCF committee chair.

As always, there will be a lot to do for fair goers (of all ages) including playing on inflatable toys like slides and bounce houses; there will be games for kids, a pie-eating contest and great music. Featured will be about 40 booths that include non-profit organizations providing information about their groups and vendors offering a variety of items to purchase. Several food trucks will be on hand to feed fair goers.

This year the organizers have added to the day a 5K Run and a 1K Doggie Stroll. All registered participants will receive a medal, including the pup runners.

There will also be some popular live bands performing at the HTCF including Crescenta Valley High School jazz band and the Mary Dyer Band.

“We will [also] have a petting zoo, face painting, a classic car show ... first responders, pet adoption and more,” Manciero said.

This is also a special HTCF not only because of its 20th year but in celebration of Crescenta Valley Water District’s (CVWD) 75th anniversary. Representatives from CVWD will be hosting several events throughout the day.

Although there are several vendors already registered Manciero said more are always welcome.

“There are a few spots left for both non-profit and for-profit vendors,” he said.

The HTCF would not be possible without its sponsors and volunteers. Manciero wanted to thank the sponsors that include: CVWD, Los Angeles County Supervisor Kathryn Barger, Bob Smith Toyota, YMCA of the Foothills, ACE Hardware, AT&T, Forest Lawn, Donut Guy Realty Group, LA Smile and Assemblymember Nick Schultz.

This event takes months of planning and lots of volunteers contribute over 100 hours to make sure the HTCF is well-planned and that it runs smoothly.

For more information or to register for the 5K/1K Dog Stroll go to www.crescentavalleychamber.org, scroll down to the Run Poster and click on the link, or contact (818) 248-4957.

PREVENT SEWER BACKUPS

- In the case of an obstruction in the public sewer, a backup valve installed on the customer's side will automatically close to prevent sewage from backing up into the building.
- A professional plumber can tell you if you need to have one installed.
- The valve should be checked regularly to ensure it is operating properly.

CRESCENTA VALLEY WATER DISTRICT

General Manager Report

GM Report
April 14, 2026

To: Honorable President and Members of the Board of Directors
From: James Lee, General Manager
Subject: General Manager Report

General Manager's Report Topics:
