1. INTRODUCTION

The Crescenta Valley Water District (the “District”) was formed on December 14, 1950. The District’s Board of Directors (the “Board”) adopted Resolution No. 785 (the “Resolution”) on April 25, 2023, which established a charge to be placed on property tax bills pursuant to California Health and Safety Code Section 5471(a). The Resolution specifies that the capital charges will be used to fund capital costs for pipeline replacements and associated expenses, and to replace aging infrastructure.

The District is located in the Crescenta Valley area of Los Angeles County, in the foothills of the San Gabriel Mountains, between the San Fernando and San Gabriel valleys. The District provides water distribution and sewage collection services within its boundaries to the unincorporated communities of La Crescenta, Montrose, and Verdugo City, as well as a small portion of the City of La Cañada Flintridge. The District currently provides water to more than 8,000 accounts, representing a population of approximately 32,000.

Annually, a written report must be filed with the District and made available for public inspection upon request. Additionally, a public hearing is held after meeting proper noticing requirements. In the absence of a majority protest at the public hearing, a majority (2/3) of the District’s Board may adopt, revise, change, reduce, or modify any capital charge, or overrule all objections and decide on each capital charge described in the report.

2. CAPITAL CHARGE

The District is proposing that the following charges be placed on property tax bills for Fiscal Year 2025/26. The charges are to be dedicated to pipeline replacement and associated costs. Most meters are $\frac{3}{4}$ ", and the vast majority of residences do not have fire service meters.
